

ILLINOIS POLLUTION CONTROL BOARD
September 26, 1973

AMOCO CHEMICALS CORPORATION)	
)	PCB 73-399
v.)	PCB 73-400
)	PCB 73-401
ENVIRONMENTAL PROTECTION AGENCY)	

INTERIM ORDER OF THE BOARD (by Mr. Dumelle):

Petition in PCB 73-399 is inadequate in that it does not state the effects upon surrounding air quality of the emission of 2093 lbs. of SO₂ during a two-hour period every four days. No details are given as to the proximity of people or animals or susceptible vegetation to these emissions, nor are the resulting concentrations estimated.

The petitions in PCB 73-400 and PCB 73-401 are not adequate in that no statement (except a conclusory one) is given as to the effects upon the environment and upon the public of the grant of the variance. Petitioner shall furnish data as to the existing level of ambient hydrocarbons and the occurrence, if any, of photochemical smog and oxidants and what reductions in these parameters will be obtained upon completion of the proposed compliance program.

A hearing shall be held on all three listed cases, which may be consolidated at the pleasure of the Hearing Officer. The information lacking shall be furnished by the petitioner within 35 days from the date of this order.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Interim Order was adopted by the Board on the 26th day of September 1973, by a vote of 5 to 0.

Christan L. Moffett
