The Board determined that additional hearings should be held in the noise rulemakings in order to address issues that have been raised in public comments. The Board also found that some of the site-specific rules contained in the existing noise regulations should be reviewed and may require changes. Because these Sections were not included in the Board's original first notice publication, the Board is withdrawing this first notice proposal. The Board will hold an additional hearing on the noise regulations before proceeding to first notice with a new proposal.
