PETITION FOR REVIEW OF ILLINOIS ENVIRONMENTAL  
PROTECTION AGENCY DECISION

Keller Oil Company / Sullivan Super K ("Sullivan Super K"), by its attorney, Carolyn S. Hesse of Barnes & Thornburg, pursuant to the Illinois Environmental Protection Act, 415 ILCS 5/1 *et. seq.* (the "Act") and 35 Illinois Administrative Code Section 105.400 *et. seq.*, hereby appeals certain decisions by the Illinois Environmental Protection Agency (the "Agency").

1. Keller Oil Company / Sullivan Super K ("Petitioner"), is the owner of a gasoline service station located 104 South Hamilton, Sullivan, Moultrie County, Illinois (the "Station"). This gasoline service station had underground storage tanks (UST's) on the property, which stored gasoline and diesel fuel.
2. LUST Incident Number 992030 was obtained following a site investigation. The site has also been assigned LPC #1390305037- Moultrie County.

3. On June 5, 2001, CW<sup>3</sup>M, the contractor hired by Sullivan Super K to assist Sullivan Super K with corrective action at the Station, sent to the Agency a Site Investigation Report and Corrective Action Plan and Budget to perform corrective action at the Station. (See Exhibit 1.)
4. On September 24, 2001, the Agency sent a letter to Petitioner rejecting the June 5, 2001, High Priority Corrective Action Plan and Budget. The letter included a list of additional information requested by the Agency and acknowledged that the corrective action included bioremediation. (See Exhibit 2.) CW<sup>3</sup>M provided the additional information requested by the Agency on September 24, 2001 and on subsequent dates.
5. By letter dated June 7, 2002, the Agency approved the Amended High Priority Corrective Action Plan dated March 5, 2002, but cut part of the budget for this plan. (See Exhibit 3.) On behalf of Petitioner, CW<sup>3</sup>M submitted on July 5, 2002, additional information related to the budget, including costs for the pilot study required for bioremediation projects. (See Exhibit 4.)
6. On October 28, 2002, the Agency again requested a modification of the proposed budget (See Exhibit 5), and CW<sup>3</sup>M provided the requested information on November 22, 2002. (See Exhibit 6.)
7. On February 24, 2003, the Agency approved the proposed budget subject to the Agency's modifications to the proposed budget. (See Exhibit 7.)
8. By cover letter dated May 19, 2003, CW<sup>3</sup>M forwarded on behalf of Petitioner a Phase II Corrective Action Plan (CAP) and Budget which

included the results of the *in-situ* bioremediation treatability study and proposed full-scale implementation of *in-situ* bioremediation.

9. On August 8, 2003 the Agency sent to Petitioner a letter rejecting the High Priority Corrective Action Plan. The letter listed five questions/comments, including questions about the "exact specifications of the bioslurry material," including "manufacturer's specifications and amount of oxygen released per pound of material." The Agency also required that site names and IEPA generator numbers be provided for sites for which the proposed remediation technology had been approved. (See Exhibit 8.)
10. In response, by letter dated October 31, 2003, CW<sup>3</sup>M, on behalf of Petitioner, provided to the Agency information relating to the bioslurry material. CW<sup>3</sup>M also responded to the Agency's comments and provided a list of 161 site names and generator numbers where the Agency approved bioremediation. This list was obtained from the Agency's database. (See Exhibit 9.)
11. On December 26, 2003, CW<sup>3</sup>M received a letter dated December 24, 2003 rejecting the High Priority Correction Action Plan for the reason that "the method of remediation cannot be approved." The Agency also disapproved the budget to perform the work. (See Exhibit 10.)
12. The Agency's letter of December 24, 2003, provides no additional information regarding why IEPA disapproved a remediation technology that it had approved previously.

13. The Agency's December 24, 2003, letter includes an attachment labeled appeal rights as the Agency's decision is a final decision, appealable to the Illinois Pollution Control Board.
14. The Agency has violated 35 Ill. Admin. Code 732.503(b) because the Agency's December 24, 2003, letter did not provide Petitioner written notice with the following information:
  - (1) An explanation of the specific type of information, if any, that the Agency needs to complete the full review;
  - (2) An explanation of the Sections of the Act or regulations that may be violated if the plan or report is approved; and
  - (3) A statement of specific reasons why the cited Sections of the Act or regulations may be violated if the plan or report is approved.

WHEREFORE, Keller Oil / Sullivan Super K respectfully requests that the Board enter an order requiring the Agency to approve the Corrective Action Plan and Budget to allow the cleanup to proceed at this facility and for Keller Oil / Sullivan Super K's attorneys' fees and costs in bringing this appeal.

Respectfully submitted,

**Keller Oil Company / Sullivan Super K**

L. Keller Oil Properties, Inc. / Sullivan Super K  
104 South Hamilton  
LUST Incident No. 992030  
LUST Technical File

Dear Mr. Henry:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the High Priority Corrective Action Plan and Budget submitted for the above-referenced incident. This information, dated June 5, 2001, was received by the Illinois EPA on June 7, 2001. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 IAC).

Pursuant to 35 IAC Section 732.405(c) and Section 57.7(c)(4)(D) of the Act, the High Priority Corrective Action Plan is rejected for the reasons listed in Attachment A.

Pursuant to 35 IAC Sections 732.405(e) and 732.503(b) and Sections 57.7(a)(1) and 57.7(c)(4)(D) of the Act, the associated budget is rejected for the following reason(s):  
The budget must be associated with an approved plan.

Pursuant to 35 IAC Section 732.401, the Illinois EPA requires a revised High Priority Corrective Action Plan and budget if applicable be submitted within days of the date of this letter to:

Illinois Environmental Protection Agency  
Bureau of Land - #24  
LUST Section  
1021 North Grand Avenue East  
Post Office Box 19276  
Springfield, Illinois 62794-9276

Please submit all correspondence in duplicate and include the "Re:" block at the beginning of this letter.

Within 35 days after the date of mailing of this final decision, the owner or operator may petition for a hearing before the Illinois Pollution Control Board (Board) to contest the decision of the Illinois EPA. (For information regarding the filing of an appeal, please contact the Board at 312/814-3620.) However, the 35-day period for petitioning for a hearing may be extended for a period of time not to exceed 90 days by written notice provided to the Board from the owner or operator and the Illinois EPA within the 35-day initial appeal period. (For information regarding the filing of an extension, please contact the Illinois EPA's Division of Legal Counsel at 217/782-5544.)

If you have any questions or need further information, please contact Scott Rothering at 217-785-1858.

Sincerely,

*Clifford L. Wheeler*

LUST Incident No. 992030  
LUST Technical File

NOTE: Citations in this Attachment are from the Illinois Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 IAC).

- 1) Prior to the approval of a Corrective Action Plan utilizing bioremediation, a pilot or biofeasibility study must be performed. This site specific study must include research or sampling which evaluates the following:
  - A) Soil types that occur within the contaminated aquifer.
  - B) Hydraulic Conductivity within the contaminated aquifer.
  - C) Dissolved Iron Concentrations within the contaminated aquifer.
  - D) PH of groundwater within the contaminated aquifer.
  - E) Groundwater temperature within the contaminated aquifer.
  - F) Background aerobic and heterotrophic bacteria counts within the contaminated aquifer.
  - G) Groundwater mineral content within the contaminated aquifer.
  - H) Available concentrations of ammonia and nitrogen in the aquifer within the contaminated aquifer.
  - I) Argument supporting the biodegradability of the indicator contaminants within the contaminated aquifer.
  - J) Calculations and testing which prove the amount of groundwater affected by the contamination.
  - K) Design area of influence which is an estimate of the volume/area of aquifer to which an adequate amount of electron acceptor and nutrient can be supplied to sustain microbial activity. Additionally, the design radius of influence must be shown for the site. Together, these determine the practicality of the design.

LUST Incident No. 992030  
LUST Technical File

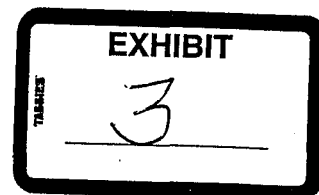

Dear Mr. Henry:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the Amended High Priority Corrective Action Plan (plan) (Bioremediation Feasibility Study) submitted for the above-referenced incident. This plan, dated March 5, 2002, was received by the Illinois EPA on March 6, 2002. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 IAC).

Pursuant to 35 IAC Section 732.405(c) and Section 57.7(c)(4) of the Act, the plan is approved. The activities proposed in the plan are appropriate to demonstrate compliance with 35 IAC Part 732 and Title XVI of the Act. Please note that all activities associated with the remediation of this release proposed in the plan must be executed in accordance with all applicable regulatory and statutory requirements, including compliance with the proper permits.

In addition, the Illinois EPA is modifying the proposed budget for the High Priority Corrective Action Plan pursuant to 35 IAC Section 732.405(c) and Section 57.7(c)(4) of the Act. Based on the modifications listed in Section 2 of Attachment A, the amounts listed in Section 1 of Attachment A have been approved. Please note that the costs must be incurred in accordance with the approved plan. Be aware that the amount of reimbursement may be limited by 35 IAC Sections 732.604, 732.606(s), and 732.611 as well as Sections 57.8(e), 57.8(g) and 57.8(d) of the Act.

GEORGE H. RYAN, GOVERNOR

All future correspondence must be submitted to:

Post Office Box 19276  
Springfield, IL 62794-9276

Please submit all correspondence in duplicate and include the "Re:" block shown at the beginning of this letter.

An underground storage tank owner or operator may appeal this final decision to the Illinois Pollution Control Board (Board) pursuant to Section 57.7(c)(4)(D) and Section 40 of the Act by filing a petition for a hearing within 35 days after the date of issuance of the final decision. However, the 35-day period may be extended for a period of time not to exceed 90 days by written notice from the owner or operator and the Illinois EPA within the initial 35-day appeal period. If the owner or operator wishes to receive a 90-day extension, a written request that includes a statement of the date the final decision was received, along with a copy of this decision, must be sent to the Illinois EPA as soon as possible.

LUST Incident No. 992030  
LUST Technical File

NOTE: Citations in this attachment are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 IAC).

**SECTION 1**

The budget was previously approved for:

\$6,615.00	Investigation Costs
\$2,200.00	Analysis Costs
\$0.00	Personnel Costs
\$656.50	Equipment Costs
\$0.00	Field Purchases and Other Costs
\$984.50	Handling Charges

The following amounts have been approved:

\$4,185.00	Investigation Costs
\$0.00	Analysis Costs
\$2,506.00	Personnel Costs
\$0.00	Equipment Costs
\$1,338.98	Field Purchases and Other Costs
\$588.96	Handling Charges

Therefore, the total cumulative budget is approved for:

\$10,800.00	Investigation Costs
\$2,200.00	Analysis Costs
\$2,506.00	Personnel Costs
\$656.50	Equipment Costs
\$1,338.98	Field Purchases and Other Costs
\$1,573.46	Handling Charges

SECTION 2

Investigation

Amount Cut: \$2000 – Monitoring Well Installation Time

Analysis

Amount Cut: \$3500.00 – Microbial Degredation laboratory costs  
These charges must be certified by laboratory prior to budget approval.

Personnel

Amount Cut: \$21,842.50

\$15,591.50 – Investigation and CAP Development Charges  
These costs must be broken out in specific tasks performed and time spent. This must be completed on Agency forms.

\$6,128.00 – Reimbursement  
These costs must be broken out in specific tasks performed and time spent. This must be completed on Agency forms.

\$45.00 – excessive hourly charges Environmental Engineer (bioremediation pilot study)

\$60.00 – excessive hourly charges Environmental Engineer (bioremediation pilot study)

\$18.00 – excessive hourly charges Engineering Technician (bioremediation pilot study)

Equipment

Amount Cut - \$0.00

Field Purchases and Other Costs

Amount Cut: \$14.28 – excessive costs, per mile rate  
\$12.24 – Investigation & CAP Development  
\$ 2.04 – Bioremediation Pilot Study

Handling Charges

Amount Cut: \$3500.00 – previous cut for lab samples. Deducted from amount eligible for handling charges.

## Environmental Consulting Services

July 5, 2002

**Mr. Scott R. Rothering, Project Manager**  
LUST Section, Bureau of Land  
Illinois Environmental Protection Agency  
1021 North Grand Avenue East  
Springfield, Illinois 62794-9276

**RE: LPC #1390305037—Moultrie County**  
**L. Keller Oil Properties, Inc./Sullivan Super K**  
**104 South Hamilton**  
**Incident Number 99-2030**  
**LUST Technical File—Corrective Action Plan Budget Amendment**

Dear Mr. Rothering:

Enclosed, please find a Corrective Action Plan Budget Amendment (CAP) for the L. Keller Oil Properties, Inc./Sullivan Super K, located in Sullivan, Illinois.

In response to your June 7, 2002 letter modifying the CAP budget, we have included a breakdown of the \$21,719.50 cut from personnel. The specific hours and tasks for investigation and reimbursement preparation are included in the "Investigation" and "Reporting" spreadsheets which follow the IEPA forms in the budget section. The investigation hours include field preparation, drilling plans, utility locations, mapping, drilling, sampling, surveying and obtaining off-site access. The other item included in the budget is the estimated cost of the microbial degradation pilot study. Although the letter requests certified costs from a laboratory, this is not practical, since the costs incurred depend upon the results of the testing. If additional testing is needed, the laboratory costs increase. The \$3,500 budgeted is a reasonable estimate of what the testing could be. We have included, as Attachment B, a copy of the most recent price schedule from Microbe Inotech Laboratories which includes the rate of \$1,620.00 for an aerobic bioremediation pilot study with nutrient chemistries. At this time, that is also what is included as a budget number. However, if the indigenous bacteria are found to be inadequate, or the chemistry is found to be out of range, a budget amendment will be necessary to retest the samples using foreign bacteria or to adjust the nutrient levels.

The unit rates for the Environmental Engineer and the Engineering Technician have been changed to reflect the rates used in the June 7, 2002 letter. Depending upon the

EXHIBIT

4

results of the treatability study, a CAP will be prepared to implement bioremediation, or proposing soil excavation and groundwater treatment.

If you have any questions or require additional information, please contact Vince E. Smith or me at 217/522-8001.

Sincerely,

Carol L. Rowe, P.G.  
Senior Environmental Geologist

LUST Incident No. 992030  
LUST Technical File

Dear Mr. Henry:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the High Priority Corrective Action Plan Budget (budget) submitted for the above-referenced incident. This budget, dated July 5, 2002, was received by the Illinois EPA on July 5, 2002. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 Ill. Adm. Code).

The Illinois EPA is modifying the proposed budget pursuant to Section 57.7(c)(4) of the Act and 35 Ill. Adm. Code 732.405(c). Based on the modifications listed in Section 2 of Attachment A, the amounts listed in Section 1 of Attachment A have been approved. Please note that the costs must be incurred in accordance with the approved plan. Be aware that the amount of reimbursement may be limited by Sections 57.8(e), 57.8(g) and 57.8(d) of the Act, as well as 35 Ill. Adm. Code 732.604, 732.606(s), and 732.611.

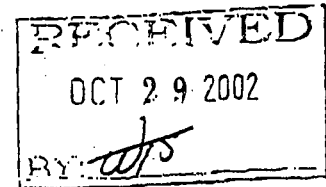

All future correspondence must be submitted to:

Illinois Environmental Protection Agency  
Bureau of Land - #24

**RE: LPC #1390305037—Moultrie County**  
**L. Keller Oil Properties, Inc./Sullivan Super K**  
**104 South Hamilton**  
**Incident Number 99-2030**  
**LUST Technical File—Corrective Action Plan Budget Amendment**

Dear Mr. Rothering:

Enclosed, please find a Corrective Action Plan Budget Amendment (CAP) for the L. Keller Oil Properties, Inc./Sullivan Super K, located in Sullivan, Illinois.

In response to your October 28, 2002 letter modifying the CAP budget, we have included a breakdown of the personnel items. The letter did not specify which item or items went into the \$220.25 which was approved, but it is assumed that 0.25 hours for Environmental Project Geologist – drilling plans, and the 5.0 hours for Project Manager – reimbursement claim review were approved. The specific hours and tasks for investigation and reimbursement preparation are included in the IEPA forms in the budget section.

If you have any questions or require additional information, please contact me at 217/522-8001.

Sincerely,

Vince E. Smith, P.E.  
Senior Environmental Engineer

Re: LPC #1390305037 - Moultrie County  
Sullivan/Keller Oil Company  
104 South Hamilton  
LUST Incident No. 992030  
LUST Technical File

Dear Mr. Henry:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the amended High Priority Work Plan Budget (budget) submitted for the above-referenced incident. This budget, dated November 22, 2002, was received by the Illinois EPA on November 26, 2002. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 IAC).

The Illinois EPA is modifying the proposed budget (35 IAC Section 732.305(c) or 732.312(j) and Section 57.7(a)(1) of the Act). Based on the modifications listed in Section 2 of Attachment A, the amounts listed in Section 1 of Attachment A have been approved. Please note that the costs must be incurred in accordance with the Illinois EPA approved plan. Be aware that the amount of reimbursement may be limited by 35 IAC Sections 732.604, 732.606(s), and 732.611 as well as Sections 57.8(e), 57.8(g), and 57.8(d) of the Act.

Pursuant to 35 IAC Section 732.301 the Illinois EPA is requiring a Site Classification Completion Report be submitted within 90 days of the date of this letter to:

Illinois Environmental Protection Agency  
Bureau of Land - #24  
LUST Section  
1021 North Grand Avenue East  
Post Office Box 19276  
Springfield, IL 62794-9276

Please submit all correspondence in duplicate and include the "Re:" block shown at the beginning of this letter.

FEB 26 2003  
*WTO*

An underground storage tank owner or operator may appeal this final decision to the Illinois Pollution Control Board (Board) pursuant to Section 57.7(c)(4)(D) and Section 40 of the Act by filing a petition for a hearing within 35 days after the date of issuance of the final decision. However, the 35-day period may be extended for a period of time not to exceed 90 days by written notice from the owner or operator and the Illinois EPA within the initial 35-day appeal period. If the owner or operator wishes to receive a 90-day extension, a written request that includes a statement of the date the final decision was received, along with a copy of this decision, must be sent to the Illinois EPA as soon as possible.

For information regarding the filing of an appeal, please contact:

Dorothy Gunn, Clerk  
Illinois Pollution Control Board  
State of Illinois Center  
100 West Randolph, Suite 11-500  
Chicago, IL 60601  
312/814-3620

For information regarding the filing of an extension, please contact:

Illinois Environmental Protection Agency  
Division of Legal Counsel  
1021 North Grand Avenue East  
Springfield, IL 62794-9276  
217/782-5544

If you have any questions or need further assistance, please contact Scott Rothering at 217-785-1858.

Sincerely,

NOTE: Citations in this attachment are from 35 Illinois Administrative Code (35 IAC) and the Environmental Protection Act.

**SECTION 1**

The budget was previously approved for:

\$10,800.00	Investigation Costs
\$2,200.00	Analysis Costs
\$2,506.00	Personnel Costs
\$656.50	Equipment Costs
\$1,338.98	Field Purchases and Other Costs
\$1,573.46	Handling Charges

The following amounts have been approved:

\$0.00	Investigation Costs
\$0.00	Analysis Costs
\$14,917.50	Personnel Costs
\$0.00	Equipment Costs
\$0.00	Field Purchases and Other Costs
\$0	Handling Charges

Therefore, the total cumulative budget is approved for:

\$10,800.00	Investigation Costs
\$2,200.00	Analysis Costs
\$17,423.50	Personnel Costs
\$656.5	Equipment Costs
\$1,338.98	Field Purchases and Other Costs
\$1,573.46	Handling Charges

FEB 26 2003

Section 2

\$3,722.50 CAP Development, CAP Design, CAP Review costs; these costs are not reimbursable until the entire CAP is proposed (with results from pilot study).

\$2,449.00 Reimbursement Preparation, exceeds allowable costs

Re: LPC #1390305037 -- Moultrie County  
Sullivan/Sullivan Super K  
104 South Hamilton  
LUST Incident No. 992030  
LUST Technical File

Dear Mr. Keller:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the High Priority Corrective Action Plan (plan) submitted for the above-referenced incident. This information, dated May 2003, was received by the Illinois EPA on May 19, 2003. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 Ill. Adm. Code).

Pursuant to Section 57.7(c)(4)(D) of the Act and 35 Ill. Adm. Code 732.405(c), the High Priority Corrective Action Plan is rejected for the following reason(s):

1. Exact specifications of the bioslurry material must be provided prior to approval of the Corrective Action Plan. This must include manufacturer's specifications and amount of oxygen released per pound of material.
2. Site names and IEPA Generator numbers must be provided for which the proposed remediation technology has been approved.
3. Completion report well diagrams indicate groundwater is located greater than twenty feet below grade. However, the proposed delivery system delivers water at ten feet below grade. It is not apparent that the bioslurry will enter the groundwater sufficiently to provide bioremediation.
4. The extent of contamination does not appear to be defined to the South.

ROCKFORD - 4302 North Main Street, Rockford, IL 61103 - (815) 987-7760 • DES PLAINES - 9511 W. Harrison St., Des Plaines, IL 60016 - (847) 294-4000  
ELGIN - 595 South State, Elgin, IL 60123 - (847) 608-3131 • PEORIA - 5415 N. University St., Peoria, IL 61614 - (309) 693-5463  
BUREAU OF LAND - PEORIA - 7620 N. University St., Peoria, IL 61614 - (309) 693-5462 • CHAMPAIGN - 2125 South First Street, Champaign, IL 61820 - (217) 278-5800  
SPRINGFIELD - 4500 S. Sixth Street Rd., Springfield, IL 62706 - (217) 786-6892 • COLLINSVILLE - 2009 Mall Street, Collinsville, IL 62234 - (618) 346-5120  
MARION - 2309 W. Main St., Suite 116, Marion, IL 62959 - (618) 993-7200

5. A monitoring well must be placed to the West directly across Hamilton Street from the tankbed to ensure contamination is not being pushed off site.

Pursuant to Sections 57.7(a)(1) and 57.7(c)(4)(D) of the Act and 35 Ill. Adm. Code 732.405(e) and 732.503(b), the associated budget is rejected for the following reason(s):

The budget is not associated with an approved plan.

Pursuant to 35 Ill. Adm. Code 732.401, the Illinois EPA requires submittal of a revised High Priority Corrective Action Plan, and budget if applicable, within 90 days of the date of this letter to:

Illinois Environmental Protection Agency  
Bureau of Land - #24  
Leaking Underground Storage Tank Section  
1021 North Grand Avenue East  
Post Office Box 19276  
Springfield, IL 62794-9276

Please submit all correspondence in duplicate and include the Re: block shown at the beginning of this letter.

An underground storage tank system owner or operator may appeal this decision to the Illinois Pollution Control Board. Appeal rights are attached.

If you have any questions or need further information, please contact Scott Rothering at 217-785-1858.

Sincerely,

Clifford L. Wheeler  
Unit Manager  
Leaking Underground Storage Tank Section

## Appeal Rights

An underground storage tank owner or operator may appeal this final decision to the Illinois Pollution Control Board pursuant to Sections 40 and 57.7(c)(4)(D) of the Act by filing a petition for a hearing within 35 days after the date of issuance of the final decision. However, the 35-day period may be extended for a period of time not to exceed 90 days by written notice from the owner or operator and the Illinois EPA within the initial 35-day appeal period. If the owner or operator wishes to receive a 90-day extension, a written request that includes a statement of the date the final decision was received, along with a copy of this decision, must be sent to the Illinois EPA as soon as possible.

For information regarding the filing of an appeal, please contact:

Dorothy Gunn, Clerk  
Illinois Pollution Control Board  
State of Illinois Center  
100 West Randolph, Suite 11-500  
Chicago, IL 60601  
312/814-3620

AUG 9 2003  
CA

For information regarding the filing of an extension, please contact:

## Environmental Consulting Services

October 31, 2003

Mr. Scott R. Rothering, Project Manager  
LUST Section, Bureau of Land  
Illinois Environmental Protection Agency  
1021 North Grand Avenue East  
Springfield, Illinois 62794-9276

**RE: LPC #1390305037—Moultrie County  
L. Keller Oil Properties, Inc./Sullivan Super K  
104 South Hamilton  
Incident Number 99-2030  
LUST Technical File—Corrective Action Plan Phase II**

Dear Mr. Rothering:

In response to your August 8, 2003 letter rejecting the Phase II Corrective Action Plan (CAP) and Budget submitted May 19, 2003, CW<sup>3</sup>M is providing the following information and requesting a reconsideration of the rejection. Responses to the individual items listed in the letter are addressed below.

**Item 1.** Exact specifications for the bioslurry materials needed are not known, as each injection batch will be unique. The materials that will be or may be used are listed in Section 6.1.3 of the CAP. CW<sup>3</sup>M will design, then either purchase or prepare each batch individually, depending upon the site conditions determined from the previous analytical data and past experience with the site.

As we have attempted to explain in our previous submittals, the proposed technology does not rely on oxygen, which is extremely difficult to produce and control throughout the vadose and saturated zones. The proposed technology uses the same principle as oxygen injection, but instead relies on controlling the carbon : nitrogen : phosphorous ratio to achieve the same results. Although not considered in the mix formulation as an active ingredient, the dissolved oxygen content in fully-aerated 21° Celsius water is approximately 9.0 mg/L, which is equal to approximately 0.008 pounds of available oxygen per pound of slurry.

**Item 2.** The following is a list of 161 site names and generator numbers where the Agency has listed bioremediation in the alternative technology category, as obtained from the Agency's LIT Database:

Item 3. All of the previously installed monitoring wells have been completed at depths greater than 20 feet. Once fully developed, the greatest depth to groundwater recorded for a monitoring well has been approximately 8 feet. The proposed delivery system was designed with a depth of 10 feet in order to minimize costs and treat both the vadose and saturated zones. During the installation, if the proposed 10 foot depth does not appear to be at or very near the water table, the trench depth will be increased to assure that the injection system can treat both the vadose and saturated zones.

Re: LPC #1390305037 – Moultrie County  
Sullivan/Sullivan Super K  
104 South Hamilton  
LUST Incident No. 992030  
LUST Technical File

Dear Mr. Keller:

The Illinois Environmental Protection Agency (Illinois EPA) has reviewed the High Priority Corrective Action Plan (plan) submitted for the above-referenced incident. This information, dated October 31, 2003, was received by the Illinois EPA on November 4, 2003. Citations in this letter are from the Environmental Protection Act (Act) and 35 Illinois Administrative Code (35 Ill. Adm. Code).

Pursuant to Section 57.7(c)(4)(D) of the Act and 35 Ill. Adm. Code 732.405(c), the High Priority Corrective Action Plan is rejected for the following reason(s):

The method of remediation can not be approved.

Pursuant to Sections 57.7(a)(1) and 57.7(c)(4)(D) of the Act and 35 Ill. Adm. Code 732.405(e) and 732.503(b), the associated budget is rejected for the following reason(s):

The budget must be associated with an approved plan.

DEC 26 2003

*WTS*

Pursuant to 35 Ill. Adm. Code 732.401, the Illinois EPA requires submittal of a revised High Priority Corrective Action Plan, and budget if applicable, within 60 days of the date of this letter to:

Illinois Environmental Protection Agency  
Bureau of Land - #24  
Leaking Underground Storage Tank Section  
1021 North Grand Avenue East  
Post Office Box 19276  
Springfield, IL 62794-9276

Please submit all correspondence in duplicate and include the Re: block shown at the beginning of this letter.

An underground storage tank system owner or operator may appeal this decision to the Illinois Pollution Control Board. Appeal rights are attached.

If you have any questions or need further information, please contact Scott Rothering at 217-785-1858.

Sincerely,

*Clifford L. Wheeler*

DEC 26 2003

Appeal Rights

*DTG*

An underground storage tank owner or operator may appeal this final decision to the Illinois Pollution Control Board pursuant to Sections 40 and 57.7(c)(4)(D) of the Act by filing a petition for a hearing within 35 days after the date of issuance of the final decision. However, the 35-day period may be extended for a period of time not to exceed 90 days by written notice from the owner or operator and the Illinois EPA within the initial 35-day appeal period. If the owner or operator wishes to receive a 90-day extension, a written request that includes a statement of the date the final decision was received, along with a copy of this decision, must be sent to the Illinois EPA as soon as possible.

For information regarding the filing of an appeal, please contact:

Dorothy Gunn, Clerk  
Illinois Pollution Control Board  
State of Illinois Center  
100 West Randolph, Suite 11-500  
Chicago, IL 60601  
312/814-3620

For information regarding the filing of an extension, please contact:

Illinois Environmental Protection Agency  
Division of Legal Counsel  
1021 North Grand Avenue East  
Post Office Box 19276  
Springfield, IL 62794-9276
