 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

HEARING OFFICER ORDER

On May 27, 2004, petitioner participated in a telephone status conference with the hearing officer. Respondent did not appear. Petitioner continues to report progress on the development of a new regional water treatment facility in Shelbyville, Illinois. This regional treatment center would process sewage for petitioner, and would result in petitioner's withdrawal of this permit appeal. Funding for this project has been received from state and federal agencies, and petitioner expects to find out about additional funding within the next six months. The design for the facility is being finalized, and easement acquisitions should be completed in about 60 days. Petitioner was not yet able to determine when construction may begin.

The parties are directed to participate in a telephone status conference with the hearing officer at 8:30 a.m. on November 17, 2004. The status conference shall be initiated by the petitioner. At the status conference, the parties must be prepared to discuss the status of the above-captioned matter.

There is an open waiver of the decision deadline in this docket.

IT IS SO ORDERED.
