IN THE MATTER OF:)
)
WASTEWATER PRETREATMENT   )   R04-1
UPDATE, USEPA AMENDMENTS   )   (Identical-in-Substance
(January 1, 2003 through June 30, 2003)   )   Rulemaking - Water)

Adopted Rule. Final Order.

OPINION OF THE BOARD (by N.J. Melas):

This identical-in-substance rulemaking updates the Illinois wastewater pretreatment regulations to incorporate revisions to the federal regulations. The United States Environmental Protection Agency (USEPA) made the amendments that prompted this action during the period of January 1, 2003 through June 30, 2003. This proceeding adopts amendments to 35 Ill. Adm. Code 307 and 310. These amendments also make a series of non-substantive corrections and stylistic revisions to segments of 35 Ill. Adm. Code 307 and 310 that are not otherwise affected by the covered federal amendments.

Sections 7.2 and 13.3 of the Environmental Protection Act (Act) (415 ILCS 5/7.2 and 13.3 (2002)) require that the Board adopt regulations that are "identical in substance" to federal wastewater pretreatment regulations. These are rules adopted by the USEPA pursuant to sections 307(b), (c), and (d) and 402(b)(8) and (b)(9) of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C. §§ 1317(b), (c), and (d) and 1342(b)(8) and (b)(9) (1994)). Section 13.3 also provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) (5 ILCS 100/5-35 and 5-40 (2002)) do not apply to the Board's adoption of identical-in-substance regulations. The federal wastewater pretreatment regulations are found at 40 C.F.R. 400 through 499.

This opinion supports an order that the Board also adopts today. The Board will immediately file the adopted amendments with the Office of the Secretary of State and cause them to be published in the *Illinois Register*.

FEDERAL ACTIONS CONSIDERED IN THIS RULEMAKING

The following listing briefly summarizes the federal actions considered in this wastewater pretreatment update rulemaking:

**Docket R04-1: January 1, 2003 through June 30, 2003,
Wastewater Pretreatment Amendments**

USEPA amended the federal wastewater pretreatment regulations on four occasions during the period January 1, 2003 through June 30, 2003. These are summarized below:

68 Fed. Reg. 7176 (February 12, 2003)
USEPA amended the effluent limitations guidelines and standards applicable to
concentrated animal feeding operation (CAFO) facilities.

68 Fed. Reg. 12266 (March 13, 2003)
USEPA adopted a direct final rule that amended the effluent limitations guidelines and
standards applicable to the Pharmaceutical Manufacturing Point Source Category.

68 Fed. Reg. 25686 (May 13, 2003)
USEPA established a first set of effluent limitations guidelines and standards applicable
to the Metal Products and Machinery Point Source Category.

68 Fed. Reg. 34831 (June 11, 2003)
USEPA withdrew segments of the March 13, 2003 direct final rule that amended the
effluent limitations guidelines and standards applicable to the Pharmaceutical
Manufacturing Point Source Category.

No Action Necessary on Certain Federal Amendments

No Board action will be necessary on certain of the federal amendments indicated above.
The May 13, 2003 effluent guidelines and standards for the Metal Products and Machinery Point
Source Category did not include standards relating to wastewater pretreatment. Those new rules
related only to direct discharges that are subject to the permit requirements under the National
Pollutant Discharge Elimination System (NPDES) requirements.

No Other Federal Actions Having a Direct Impact on
the Illinois Wastewater Pretreatment Regulations

In addition to the amendments to the federal wastewater pretreatment regulations,
amendments to other federal regulations occasionally affect the Illinois wastewater pretreatment
rules. Most notably, 35 Ill. Adm. Code 310.107 includes incorporations of federal regulations by
reference. The incorporated regulations include segments of various USEPA environmental
regulations and United States Department of Transportation hazardous materials transportation
regulations that USEPA has incorporated into the federal hazardous waste rules.

As of the date of this proposal for public comment, the Board has found no amendments
to the incorporated materials. There is no necessary Board action with regard to federal
amendments to materials incorporated by reference.

Summary Listing of the Federal Actions Forming the Basis of
the Board's Actions in These Consolidated Dockets

Based on the foregoing, the federal actions that form the basis for Board action in this
update docket are the following, listed in chronological order:

February 12, 2003 (68 Fed. Reg. 7176)	Amended effluent limitations guidelines and standards for CAFO facilities
March 13, 2003 (68 Fed. Reg. 12266)	Amended effluent limitations guidelines and standards for the Pharmaceutical Manufacturing Point Source Category
June 11, 2003 (68 Fed. Reg. 34831)	Partial withdrawal of the March 13, 2003 amendments relating to the Pharmaceutical Manufacturing Point Source Category

PUBLIC COMMENTS

Notices of Proposed Amendments for the November 6, 2003 proposal for public comment appeared in the December 1, 2003 issue of the *Illinois Register*. The Board held the docket open to receive public comments on the proposal for a period of 45 days following its publication in the *Illinois Register*, until January 15, 2004. No public comments were filed, but the Board received a number of suggestions for non-substantive corrections from the Joint Committee on Administrative Rules (JCAR). The changes prompted by the JCAR comments are itemized in the table that begins on page 180 of this opinion.

DISCUSSION

The following discussion begins with a description of the various deviations the Board makes from the literal text of federal regulations in adopting identical-in-substance rules. It is followed by a discussion of the amendments and actions undertaken in direct response to the federal actions involved in this proceeding. This first series of discussions is organized by federal subject matter, generally appearing in chronological order of the relevant *Federal Register* notices involved. Finally, this discussion closes with a description of the amendments and actions that are not directly derived from the federal actions.

General Revisions and Deviations from the Federal Text

In incorporating the federal rules into the Illinois system, some deviation from the federal text is unavoidable. This deviation arises primarily through differences between the federal and state regulatory structure and systems. Some deviation also arises through errors in and problems with the federal text itself. The Board conforms the federal text to the Illinois rules and regulatory scheme and corrects errors that we see in the text as we engage in these routine update rulemakings.

In addition to the amendments derived from federal amendments, the Board often finds it necessary to alter the text of various passages of the existing rules as provisions are opened for update in response to USEPA actions. This involves correcting deficiencies, clarifying provisions, and making other changes that are necessary to establish a clear set of rules that closely parallel the corresponding federal requirements within the codification scheme of the *Illinois Administrative Code*.

The Board updates the citations to the *Code of Federal Regulations* to the most recent version available. As of the date of this opinion, the most recent version of the *Code of Federal Regulations* available to the Board is the July 1, 2003 version.[1] Thus, the Board has updated all citations to the 2003 version, adding references to later amendments using their appropriate *Federal Register* citation, where necessary.

The Board substituted "or" for "/" in most instances where this appeared in the federal base text, using "and" where more appropriate. The Board further used this opportunity to make a number of corrections to punctuation, grammar, spelling, and cross-reference format throughout the opened text. We changed "who" to "that" and "he" or "she" to "it," where the person to which the regulation referred was not necessarily a natural person, or to "he or she," where a natural person was evident; changed "which" to "that" for restrictive relative clauses; substituted "must" for "shall"; capitalized the section headings and corrected their format where necessary; and corrected punctuation within sentences.

In addition, the federal rules have been edited to establish a uniform usage throughout the Board's regulations. For example, with respect to "shall," "will," and "may," "must" is used when an action is required by the rule, without regard to whether the action is required of the subject of the sentence or not. "Shall" is no longer used, since it is not used in everyday language. Thus, where a federal rule uses "shall," the Board substitutes "must." This is a break from our former practice where "shall" was used when the subject of a sentence has a duty to do something. "Will" is used when the Board obliges itself to do something. "May" is used when choice of a provision is optional. "Or" is used rather than "and/or," and denotes "one or both." "Either . . . or" denotes "one but not both." "And" denotes "both."

The Joint Committee on Administrative Rules (JCAR) has requested that the Board refer to the United States Environmental Protection Agency in the same manner throughout all of our bodies of regulations—*i.e.*, air, water, drinking water, RCRA Subtitle D (municipal solid waste landfill), RCRA Subtitle C (hazardous waste), underground injection control (UIC), etc. The Board has decided to refer to the United States Environmental Protection Agency as "USEPA." We will continue this conversion in future rulemakings as additional sections become open to amendment. We will further convert "EPA" used in federal text to "USEPA," where USEPA is clearly intended.

The Board has assembled tables to aid in the location of these alterations and to briefly outline their intended purpose. The tables set forth the miscellaneous deviations from the federal text and corrections to the pre-amended base text of the rules in detail. The tables are set forth and explained beginning at page 9 of this opinion. There is no further discussion of most of the deviations and revisions elsewhere in this opinion.

1. The Board has downloaded from the Government Printing Office (GPO) website (www.access.gpo.gov) the 2003 edition of 40 C.F.R. 2, 25, 122, and 403, which are incorporated by reference in Part 310, and the segments of 40 C.F.R. 400-499 that are incorporated by reference in Part 307. The 2003 edition of 40 C.F.R. 136 is not yet available from that source. The entire set of Title 40 of the *Code of Federal Regulations* will be available from the GPO early in 2004.

Discussion of the Particular Federal Actions Involved in This Docket

Amended Standards for Concentrated Animal Feeding Operation (CAFO) Facilities-- Subpart M of Part 307

The USEPA action of February 12, 2003 (68 Fed. Reg. 7176), related to discharges from concentrated animal feeding operation (CAFO) facilities. The primary emphasis of the CAFO rule is the control of water pollution from animal manure. It governs, *inter alia*, animal confinement areas, manure containment facilities, land application of animal wastes, and stormwater runoff from facilities. The rules apply to CAFOs. In broad terms, the applicability of the CAFO rule is determined by a combination of facility size and the facility's capacity to discharge pollutants. USEPA divided the universe of animal feeding operations (AFOs) into three categories based on size. The number of animals that the facility manages determines the AFO size. A large AFO is designated by rule as a CAFO that is subject to regulation. A medium AFO is designated by rule as a CAFO that is subject to regulation if it discharges pollutants to waters of the United States. The USEPA (or an authorized State) may designate a small AFO as a CAFO that is subject to regulation based on its determination that the facility is a significant contributor of pollutants to waters of the United States in light of specified considerations.

Most of the substance of the federal CAFO rules is beyond the scope of this rulemaking, since only a small segment relates to wastewater pretreatment. Under 40 C.F.R. 412.3 (corresponding with 35 Ill. Adm. Code 307.2201(c)), any CAFO that discharges process wastewater into the collection system of a publicly owned treatment works (POTW) must comply with the general pretreatment standards of 40 C.F.R. 403 (corresponding with 35 Ill. Adm. Code 310). The only sub-category for which USEPA established specific pretreatment standards was subpart B of 40 C.F.R. 412 (corresponding with 35 Ill. Adm. Code 307.2202), applicable to new wet lot and dry lot duck CAFOs. That standard, however, is no more specific than to prohibit discharge of pollutants from these facilities into the waters of the United States, except runoff from a 25-year, 24-hour rainfall event.

The Board has incorporated the wastewater pretreatment segments of the federal CAFO amendments without substantive deviation from the corresponding federal text. The structure of the Illinois wastewater pretreatment regulations is such that the primary means of incorporating federal requirements is by use of incorporation of the federal rules by reference. Generally, the Illinois regulations set forth the text of shorter general provisions, like applicability statements, and incorporate the more lengthy federal substantive requirements by reference. Following this general pattern, incorporation of the February 12, 2003 federal amendments appears to require the following amendments to the Illinois rules:

Federal Action	Proposed Board Action
Added 40 C.F.R. 412.1	Amend Section 307.2201(a)
Added 40 C.F.R. 412.2	Update the incorporation at Section 307.2201(b)
Added 40 C.F.R. 412.3	Add an incorporation at Section 307.2201(c)
Added 40 C.F.R. 412.4	None; not applicable to wastewater pretreatment

Added 40 C.F.R. 412.10   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.12   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.13   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.15   None; not applicable to wastewater pretreatment
Amended 40 C.F.R. 412.20   Amend Section 307.2202(a)
Amended 40 C.F.R. 412.21   Update the incorporation at Section 307.2202(b)
Amended 40 C.F.R. 412.22   None; not applicable to wastewater pretreatment
Removed 40 C.F.R. 412.24   Remove the incorporation at Section 307.2202(c)
Amended 40 C.F.R. 412.25   None; not applicable to wastewater pretreatment
Amended 40 C.F.R. 412.26   Update the incorporation at Section 307.2202(d)
Added 40 C.F.R. 412.30   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.31   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.32   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.33   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.35   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.37   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.40   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.43   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.44   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.45   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.46   None; not applicable to wastewater pretreatment
Added 40 C.F.R. 412.47   None; not applicable to wastewater pretreatment

The deviations from the literal text of the federal amendments are restricted to minimal stylistic changes to incorporate the federal requirements into the Illinois regulations. The table that begins on page 9 of this opinion itemizes the limited revisions made in the federal text.

The Board requested public comment on the proposed incorporation of the February 12, 2003 federal CAFO amendments. No public comment was submitted in response. Rather, the only comments received were a number of non-substantive corrections from JCAR.

Amended Standards for Subcategories of the Pharmaceutical Manufacturing Point Source Category--Subpart BN of Part 307

On March 13, 2003 (68 Fed. Reg. 12266), USEPA adopted a direct final rule that amended the effluent limitations guidelines and standards applicable to the Pharmaceutical Manufacturing Point Source Category. USEPA partially withdrew the March 13, 2003 direct final rule on June 11, 2003 (68 Fed. Reg. 34831). USEPA stated that the intent of the amendments was to clarify rules published on September 21, 1998 (at 63 Fed. Reg. 50424).[2] The first clarification related to the effective date for the standards applicable to new sources. The second clarification was to establish an average 5-day biochemical oxygen demand (BOD_5) limitation omitted from the 1998 rule. Third, the amendments corrected an error in USEPA's

2. The Board incorporated the 1998 federal rules into the Illinois regulations in Wastewater Pretreatment Update, USEPA Regulations (July 1, 1999 through December 31, 1999), R00-15 (July 13, 2000).

pass-through analysis and deleted methyl cellosolve from the pretreatment standards. USEPA stated that its amendments also included a number of non-substantive editorial and format changes. The June 11, 2003 partial withdrawal related to the new source effective dates.

The Board has incorporated the March 13, 2003 and June 11, 2003 federal amendments relating to the Pharmaceutical Manufacturing Point Source Category. The structure of the Illinois wastewater pretreatment regulations is such that the primary means of incorporating federal requirements is by use of incorporation of the federal rules by reference. Generally, the Illinois regulations set forth the text of shorter general provisions, like applicability statements, and incorporate the more lengthy federal substantive requirements by reference. Following this general pattern, incorporation of the March 13, 2003 and June 11, 2003 federal amendments appears to require the following amendments to the Illinois rules:

Federal Action	Proposed Board Action
Amended 40 C.F.R. 439.1	Update the incorporation at Section 307.4900(a)
Amended 40 C.F.R. 439.2	Update the incorporation at Section 307.4900(b)
Amended 40 C.F.R. 439.4	Amend the incorporation at Section 307.4900(e)
Amended 40 C.F.R. 439.11	Update the incorporation at Section 307.4901(b)

Amended 40 C.F.R. 439.51	None; not applicable to wastewater pretreatment
Amended 40 C.F.R. 439.52	None; not applicable to wastewater pretreatment
Amended Table 2 to Appendix A to 40 C.F.R. 439	Update the incorporation at 307.4900(e)

The deviations from the literal text of the federal amendments are restricted to minimal stylistic changes to incorporate the federal requirements into the Illinois regulations. The revisions are all listed in the table that begins on page 10 of this opinion.

The Board requested public comment on the proposed incorporation of the March 13, 2003 and June 11, 2003 federal amendments relative to the Pharmaceutical Manufacturing Point Source Category. No public comment was submitted in response. Rather, the only comments received were a number of non-substantive corrections from JCAR.

Discussion of Corrective Amendments

The Board has traditionally used the occasion of these identical-in-substance updates to correct segments of the base text of the Illinois regulations. The Board has added to this proceeding a limited number of corrective amendments to sections of the rules not affected by the underlying federal amendments. These corrections are nearly exclusively non-substantive in effect.

When a necessary minor correction comes to the attention of the Board, Board staff makes a note of the correction, and it is set aside until the next opportunity to make the correction. The next opportunity generally presents itself when the section involved is next opened for amendment as a result of amendments to the corresponding federal text. Over the last few years, the Board has cataloged many changes, but the pace of completing the corrections has been slow, since only a limited number of all the sections involved in the wastewater pretreatment regulations have been the subject of federal amendments. At the rate at which the Board has been able to make the corrections while restricting attention to opened Sections of the regulations, the Board might never be able to complete the corrections.

The Board is including a number of corrections in this docket. The overall length of the combined texts of Parts 307 and 310 is about 350 pages. This proceeding completes the corrections to the text of Parts 307 and 310.

The Board will not discuss particular corrective amendments in this segment of this discussion. The corrections are each itemized in the table that begins on page 9 of this opinion. The Board requests that the Agency, JCAR, and the regulated community review the table and the text of the corrections. The Board requests comment on the corrections. The Board also asks for the assistance of the Agency, JCAR, and the regulated community in this process; the Board requests that they submit suggestions for correction of any errors of which they are aware. The Board will catalog any suggestions relating to parts and sections not already involved in this proceeding for future use.

Discussion of Miscellaneous Housekeeping Amendments

The tables below list numerous corrections and amendments that are not based on current federal amendments. The first table (beginning immediately below) includes deviations made in this Proposal for Public Comment from the verbatim text of the federal amendments. The second table (beginning below at page 10) contains corrections and clarifications that the Board

made in the base text involved in this rulemaking. The amendments listed in this second table are not directly derived from the current federal amendments. Some of the entries in these tables are discussed further in appropriate segments of the general discussion beginning at page 3 of this opinion. Table 3 (beginning on page 180 below) is a listing of revisions made to the text of the amendments from that proposed and set forth in the Board's opinion and order of November 6, 2003. Table 3 indicates the changes made, as well as the source that suggested each of the changes. Table 4 (on page 186 below) indicates suggested revisions that the Board has not made in adopting these amendments. Each entry gives a brief explanation why the Board did not incorporate the suggested change.

Table 1:
Deviations from the Text of the Federal Amendments

Illinois Section	40 C.F.R. Section	Revision(s)
307.2201(a)	412.1	Changed "and/or" to "or" (twice); changed "which" to "that" for a restrictive relative clause; changed "this part" to "this Section"; changed "Standard Industrial Classification (SIC) Codes" to "SIC codes"; added "as defined in the . . . Manual"; added incorporation language; listed the industry codes as separate subsections, adding the name of the industrial category
307.2201(d)	122.23(b) and (c)	Incorporated the definition of CAFO and the subsidiary requirement for designating a CAFO by reference
307.2202(a)	412.20	Changed "this subpart" to "this Section"; changed "CAFOs . . . capacities" to singular "a CAFO . . . capacity"
307.2202(c)	412.24	Added a reference to the federal removal of the standards for existing sources in place of the label "reserved"

Table 4
Requested Revisions to the Text of the Proposed Amendments Not Made in Final
Adoption

Section Affected	Source(s) of Request: Requested Revision(s)	Explanation
307.1608(c)	JCAR: Change the ending colon to a period.	This was done in the proposal.

307.2400(b)(8)(D)	JCAR: Change "between" to "among."	"Between" is appropriate for two options, while "among" is appropriate only for a greater number.
307.2400(b)(8)(D)(ii)	JCAR: Change the ending period to a semicolon and add the conjunction "and"	Subsections (i) and (ii) are the only two options; the Board has chosen instead to reformat subsection (b)(8)(D) for clarity
307.2403(a) "polystyrene--copolymers"	JCAR: Change the em-dash to a hyphen.	An em-dash is more appropriate to set apart the defining phrase.
307.2403(a) "silicones--silicone resin"	JCAR: Change the em-dash to a hyphen.	An em-dash is more appropriate to set apart the defining phrase.
307.2403(a) "silicones--silicone rubber"	JCAR: Change the em-dash to a hyphen.	An em-dash is more appropriate to set apart the defining phrase.
307.2406(a)(3) "BTX--benzene-toluene-xylene"	JCAR: Change the em-dash to a hyphen.	An em-dash is more appropriate to set apart the defining phrase.
307.3121	JCAR: Change "shall" to "must"	This change appeared in the proposed amendments
307.3400(b)	JCAR: Add a date to the *Code of Federal Regulations* reference.	This reference does not incorporate any requirements by reference, so a date is not needed.
307.4206(a)	JCAR: Add a comma before the prepositional phrase "by a meat cutter."	The added comma is not necessary, since the phrase is not a parenthetical.
307.4901(d)(2)	JCAR: Add a comma after "threaten" to offset the final element of the series	This change appeared in the proposed amendments
310.201(b)(1)	JCAR: Change "the" to "that the"	This change appeared in the proposed amendments
310.201(c)	JCAR: Add a comma after "State" to offset the final element of the series	This change appeared in the proposed amendments
310.233(a)(1)	JCAR: Add a comma after "State" to offset the final element of the series	This change appeared in the proposed amendments
310.233(a)(1)	JCAR: The expression "$\Sigma\ G_i$" appears in the definitions of terms, but not in the equation.	This defines the summation process itself, and does not define the variable "G_i"
310.233(a)(1)	JCAR: Subsection designations "A)" through "C)" should appear as bulleted items.	The chosen structure most closely follows that of the corresponding federal rule.

310.233(a)(2)	JCAR: The expression "$\Sigma\ G_i$" appears in the definitions of terms, but not in the equation.	This defines the summation process itself, and does not define the variable "G_i"
310.233(a)(2)	JCAR: Subsection designations "A)" through "C)" should appear as bulleted items.	The chosen structure most closely follows that of the corresponding federal rule.
310.510(a)(6)(B)	JCAR: Add a comma after "regulations" to offset the final element of the series	This change appeared in the proposed amendments
310.510(a)(6)(B)	JCAR: Revert "must" to "shall."	"Must" is appropriate in each occurrence.
310.510(b)(7)(B)	JCAR: Add a comma before "except" to offset it as a parenthetical	This change appeared in the proposed amendments
310.542(b)	JCAR: The word "state" appears both capitalized and not capitalized.	The non-capitalized appearance refers to any state; while the capitalized appearance refers more specifically to the State of Illinois
310.544	JCAR: Revert "must" to "shall."	"Must" is appropriate in each occurrence.
310.544	JCAR: Revert "must" to "shall."	"Must" is appropriate in each occurrence.
310.635	JCAR: Change "no later than 180 days after the effective date" to a date certain.	The language, copied from the federal regulations, provides for the future applicability of the rule as a result of regulatory amendment.
310.905 Board note	JCAR: Change "(1986)" to "(2003)"	This change appeared in the proposed amendments

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above opinion on January 22, 2004, by a vote of 5-0.
