I want to let the IPCB know that I strongly concur with the McHenry County Board that Lowe's application for a waste transfer facility did not meet three of the criteria required by the State.

There is a large development of townhouses (Bright Oaks) that will definitely be effected by noise, air pollution and rodent infestations. The truck traffic along Route 14 will significantly increase with trash being blown around the area. This facility would border The Hollows, which is a nature conservation area and I am very concerned about increased litter and potential groundwater pollution.

Please support the decision made by the McHenry County Board and deny Mr. Lowe's application of a waste transfer facility.

Cordially,
