 v.) PCB 02-158
) (NPDES Permit Appeal)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

HEARING OFFICER ORDER

On November 17, 2004, the parties participated in a telephone status conference with the hearing officer. Petitioner continues to report progress on the development of a new regional water treatment facility in Shelbyville, Illinois. This regional treatment center would process sewage for petitioner, and would result in petitioner's withdrawal of this permit appeal. The preliminary engineering report has been approved, and the project engineers plan to complete the final design details during the winter months. Hopefully, construction will begin next spring. Some delays have stemmed from the expansion of this project to now include Eagle Creek State Park, the Findley marina, and a new lift station.

The parties are directed to participate in a telephone status conference with the hearing officer at 8:45 a.m. on May 26, 2005. The status conference shall be initiated by the petitioner. At the status conference, the parties must be prepared to discuss the status of the above-captioned matter.

There is an open waiver of the decision deadline in this docket.

IT IS SO ORDERED.

Carol Webb
