RULEMAKING UPDATE

DISMISSED PROCEDURAL AMENDMENTS FOR DE NOVO HEARINGS IN NPDES PERMIT APPEALS, R90-8

On May 7, 1992, the Board dismissed R90-8, which would have amended the procedural rules to allow de novo hearings in NPDES permit appeals proceedings. This proceeding was intended to correct discrepancies between the Board's and appellate court's disparate interpretations of the "de novo regulation". The record accumulated in this matter indicated that the issues involved are more complex than originally thought. The Board believed that they would be best addressed in a review of the entirety of the permit appeal procedural rules. The Board further opined that legislative action might be necessary. Questions should be directed to Karen Rosenwinkel at 312-814-3665.

PROPOSED RCRA UPDATE, R92-1

On May 7, 1992 the Board proposed amendments in R92-1, an update for USEPA revisions to the "RCRA rules", governing hazardous waste, during the period July 1 through December 31, 1991. The covered amendments include new hazardous waste export rules, amendments relating to the location of groundwater monitoring wells at interim status facilities, and USEPA corrections to the liability insurance regulations. The Board will accept public comments until 45 days after notices of proposed amendments appear in the Illinois Register. Questions should be directed to Morton Dorothy at 217-333-5575.

 RESTRICTED STATUS LIST

In order to comply with 35 Illinois Administrative Code Section 306.401 Illinois Pollution Control Board Regulations, the Illinois EPA has prepared the following list of facilities which are on Restricted Status. Restricted Status is defined as the Agency determination that a sewer or lift station has reached hydraulic capacity or that a sewage treatment plant has reached design capacity, such that additional sewer connection permits may no longer be issued without causing a violation of the Act or Regulations. Please note that the list is continually being revised to reflect the current situation. Therefore, if you have any questions on the capability of a treatment facility or transport system, please contact this Agency for a final determination. This listing reflects the status as of March 31, 1992.

Facility names followed by an asterisk (*) indicates that construction is underway to ultimately alleviate problems which resulted in imposition of Restricted Status. Facilities followed by a double asterisk (**) are additions to the list.
