"Erin:

611.956(d)(2) strikes the last sentence. Mike's opinion and order says corrections were made in R03-4 so why are any changes being made here? Mike says 40 CFR 563 = 956(d) and to check the 6/29/04 FR. I did. 141.563 says to delete the last sentence of 563(b) and to change BTU to NTU in 563(c). That's no help. What federal subsection = 956(d)?

Mike says 611.242 = 141.72(b). the 6/29 FR makes 3 changes in 72(b) all of which are changing 1 section reference to another. Where do the text changes in 242(c)(2) come from?

611.953 – Where can I find the standards IEPA will use to make the determination that the data set is representative TTHM and HAA5 data? Should it read "is representative of. . ."?
