RULEMAKING UPDATE

BOARD PROPOSES UST UPDATE, R91-14

On January 9 and 23, 1992, in R91-14, the Board proposed amendments to the UST underground storage tank rules. The UST program regulates petroleum and hazardous substances in underground storage tanks. It is mandated by Section 7.2 and 22.4(d) of the Act. It is contained in 35 Ill. Adm. Code 731, which reflects USEPA regulations in 40 CFR 280. The Board adopted a Proposed Opinion and Order on January 9, 1992, and modified that proposed Opinion and Order on January 23, 1992.

This Update covers USEPA regulations appearing in the Federal Register between January 1 and June 30, 1991. However, there were no USEPA actions which required amendment of Board rules during that period. Instead, this Docket focuses on changes to the Board's statutory authority due to P.A. 87-323.

The Proposed Opinion and Order of January 9, 1992, focuses on the reduction in the scope of the Board's UST rules, which are now to govern only corrective action. The Order of January 23, 1992, focuses on certain heating oil tanks, which are now to be included in the Board's remaining UST rules. The two Orders will be combined for publication in the Illinois Register in the near future.

Persons desiring copies of the Opinions and Orders, or wishing to be added to the notice list should contact Morton Dorothy at 217/ 333-5575.

BOARD PROPOSES RCRA UPDATE, R91-13

On December 19, 1991, the Board proposed to Update the RCRA hazardous waste rules in R91-13. The RCRA hazardous waste program regulates the generation, transportation, treatment, storage and disposal of hazardous waste. Sections 7.2 and 22.4(a) of the Act requires the Board to adopt regulations which are "identical in substance" to USEPA regulations. The Board's RCRA regulations are in 35 Ill. Adm. Code 702 through 705, and 720 through 728. These are derived from USEPA regulations at 40 CFR 260 through 270.

R91-13 updates the Board's RCRA rules to include USEPA actions during the period January 1 through June 30, 1991. These actions include: the USEPA corrections to the "third third" land disposal bans adopted in R90-11 and the boiler and industrial furnace ("BIF") rules.

The Proposal appeared in the Illinois Register on January 17, 1992. The Board will receive public comment through March 2, 1992.

Persons desiring copies of the Opinions and Orders, or wishing to be added to the notice list should contact Morton Dorothy at 217/ 333-5575.

BOARD EXTENDS RCRA WOOD PRESERVING COMPLIANCE DATES, R91-26

On January 9, 1992, the Board adopted a final Opinion and Order in R91-26, extending certain compliance dates for wood preservers under the RCRA rules.

On August 8, 1991, in R91-1, the Board adopted USEPA RCRA rules applicable to wood preservers. Encompassed within R91-1 was a USEPA "administrative stay" of certain requirements. To qualify for the stay, wood preservers had to make certain filings, and complete surface coating of drip pads by February 6, 1992. However, since the coating required temperatures in excess of 70 degrees Fahrenheit, the compliance schedule was impossible to meet in Illinois. The Board therefore opened this Docket to extend the schedule out to July 1, 1992.

Questions should be directed to Morton Dorothy at 217/ 333-5575.

FOR YOUR INFORMATION

BOARD ADOPTS NEW UST APPEAL PROCEDURE

On January 23, 1992, in Ideal Heating Co. v. Illinois Environmental Protection Agency, PCB 91-253, the Board adopted a new procedure for appeals from the Illinois Environmental Protection Agency's (IEPA) decisions regarding access to the Underground Storage Tank (UST) Fund. (Ill. Rev. Stat. 1989, ch. 111 1/2, par. 1022.18b.) Under the Board's holding, UST determinations are appealable to the Board only after the IEPA has made a complete determination of eligibility, the deductible amount and reimbursement of costs. However, the Agency need not reach the remaining issues where it denies eligibility and an applicant may still appeal the denial of eligibility to the Board. The Board's holding does not apply to those appeals which have already proceeded to hearing. Beer Motors Co. v. Illinois Environmental Protection Agency, PCB 91-120 (January 23, 1992).
