RECOMMENDATION

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board, 35 Ill. Adm. Code 125.204.

1. On April 2, 2004, the Illinois EPA received a request from McLean Properties, LLC (log number TC-14-04, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.
2. The applicant's address is: McLean Properties, LLC  
1251 N. 1025 E. Rd.  
McLean, Illinois 61754
3. The proposed water pollution control facilities in this request are located at NW ¼ Section 11, T21N, R1E of the 3rd P.M. in McLean County, at the above street address and consist of the following:

Livestock waste management facilities consisting of one concrete manure pit (101 ft. x 228 ft. x 8 ft. deep), with the slotted concrete portion of the floor over the manure pit and 6 concrete pump out manure pits (each 6 ft. x 6 ft. x 8 ft. deep) located in each of three swine buildings.

These livestock waste management facilities are used to collect, transport, and/or store livestock wastes prior to cropland application, and are further described in Exhibit A.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2004), defines

“pollution control facilities” as:

“any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: (a) eliminating, preventing, or reducing air or water pollution ...or (b) treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.”

5. Pollution control facilities are entitled to preferential tax treatment, 35 ILCS 200/11-5.
6. Based on the information in the application and the purpose of the facilities, it is the Illinois EPA’s engineering judgment that the described facilities may be considered “pollution control facilities,” pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the

requested tax certification.

BOW/WPC/PERMIT SECTION

POLLUTION CONTROL FACILITY - CONTAMINANTS  ACCOUNTING DATA	Sec. E (1) Nature of Contaminants or Pollutants <div style="text-align: center; font-weight: bold;">Swine Manure</div>			
		Material Retained, Captured or Recovered		
	Contaminant or Pollutant	DESCRIPTION	DISPOSAL OR USE	
	Swine manure	Swine manure from 9,000 lbs of wean to finish Hogs.	The animal waste is injected into the ground at agronomic rates in accordance with the Nutrient Management Plan.	
	(2) Point(s) of Waste Water Discharge NONE			
	Plans and Specifications Attached    Yes    No <input checked="" type="checkbox"/>			
	(3)	Are contaminants (or residues) collected by the control facility?    Yes <input checked="" type="checkbox"/> No		
	(4)	Date installation completed <u>11/1/93</u> status of installation on date of application <u>complete</u>		
	(5)	a. FAIR CASH VALUE IF CONSIDERED REAL PROPERTY:    \$ <u>563,000</u>		
		b. NET SALVAGE VALUE IF CONSIDERED REAL PROPERTY:    \$ <u>10,000</u>		
	c. PRODUCTIVE GROSS ANNUAL INCOME OF CONTROL FACILITY:    \$ <u>0</u>			
	d. PRODUCTIVE NET ANNUAL INCOME OF CONTROL FACILITY:    \$ <u>0</u>			
	e. PERCENTAGE CONTROL FACILITY BEARS TO WHOLE FACILITY VALUE:    % <u>46%</u>			
SIGNATURE	Sec. F The following information is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge, is true and correct. The facilities claimed herein are "pollution control facilities" as defined in Section 11-10 of the Illinois Property Tax Code.			
	<div style="display: flex; justify-content: space-between;"> <div style="text-align: center;">             Signature         </div> <div style="text-align: center;"> <u>Manager</u>            Title         </div> </div>			
INSTRUCTIONS	Sec. G INSTRUCTIONS FOR COMPILING AND FILING APPLICATION			
	General: Separate applications must be completed for each control facility claimed. Do not mix types (water and air). Where both air and water operations are related, file two applications. If attachments are needed, record them consecutively on an index sheet.			
	Sec. A	Information refers to applicant as listed in the tax records and the person to be contacted for further details or for inspection of facilities. Define facility location by street address or legal description. A plat map location is required for facilities located outside of municipal boundaries. The property identification number is required.		
	Sec. B	Self-explanatory. Submit copies of all permits issued by local pollution control agencies. (e.g. MSD Construction Permit)		
	Sec. C	Refers to manufacturing processes or materials on which pollution control facility is used.		
	Sec. D	Narrative description of the pollution control facility, indicating that its primary purpose is to eliminate, prevent or reduce pollution. State the type of control facility. State permit number, date, and agency issuing permit. A narrative description and a process flow diagram describing the <u>pollution control facility</u> . Include a listing of each major piece of equipment included in the claimed fair cash value for real property. Include an <u>average</u> analysis of the influent and effluent of the control facility stating the collection efficiency.		
	Sec. E	List air contaminants, or water pollution substances released as effluents to the manufacturing processes. List also the final disposal of any contaminants removed from the manufacturing processes. Item (1) - Refers to pollutants and contaminants removed from the process by the pollution control facility. Item (2) - Refers to water pollution but can apply to water-carried wastes from air pollution control facilities. Submit drawings, which clearly show (a) Point(s) of discharge to receiving stream, and (b) Sewers and process piping to and from the control facility. Item (3) - If the collected contaminants are disposed of other than as wastes, state the disposition of the materials, and the value in dollars reclaimed by sale or reuse of the collected substances. State the cost of reclamation and related expense. Item (4) - State the date which the pollution control facility was first placed in service and operated. If not, explain. Item (5) - This information is essential to the certification and assessment actions. This accounting data must be completed to activate project review prior to certification by this Agency.		
	Sec. F	Self-explanatory. Signature must be a corporate authorized signature.		
		Submit to:  Illinois EPA P.O. Box 19276 Springfield, IL 62794-9276	Attention:  Thomas McSwiggin Permit Section Division of Water Pollution Control	Attention:  Donald E. Sutton Permit Section Division of Air Pollution Control

There are 3 of these buildings at this site. Each building holds 3000 Hd of wean to finish hogs. Each Building has a pit size of 101' x 228' x 8' deep. The concrete is reinforced with rebar. There is 4 pump outs on one end of the building and one pump out on the each side. The pump outs have a PTO driven centrifical hooked up to them to pump out the manure. The flooring is 100% total slats. There is a center wall with 3 flow through holes to level out the center wall.
