Re: Illinois Pollution Control Board #R04-22/23

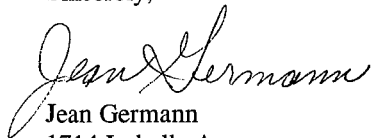

To Whom It May Concern:

I am requesting additional hearings by the Pollution Control Board on the proposed amendments to the Illinois Environmental Protection Agency Leaking Underground Storage Tank Regulations Part 732 and Part 734. I also request the hearings to be conducted in Southern Illinois so that residents from this area can participate in the rulemaking process as in the past the hearings have been held upstate. This would give the residents from the southern region of Illinois a better opportunity to attend these hearings.

I am very concerned about how the proposed amendments to these regulations could adversely affect the Company I work for as well my co-workers and myself.

Thank you for your time and consideration in this matter.

Sincerely,

Jean Germann
