Subject: Waste Management Appeal Hearing

Case # IPCB 04-186

I am a lifelong resident of Kankakee County and have been very involved in the landfill issues. I live in Otto township and have spoken to many of the residents in this area. What the majority tell me, they are opposed to the expansion for many reasons. They are about the health and welfare of their familys.

Also of importance, only a few county board members favor it. The county planning and zoning group are looking into alternate solutions that can produce energy from garbage. This is a positive solution. I feel denying this appeal would make a big difference.
