Order of the Board on Motion for Reconsideration:

Mr. Piroyan's variance petition regarding connection to a sewer tributary to an overloaded North Shore Sanitary District plant was denied by the Board August 5. He petitions for reconsideration, alleging that the impossibility of installing a holding tank was a fact not alleged in the initial petition and his case is similar to # 71-100, Ciancio v. EPA, in which a variance was granted. The cases are not the same, for reasons stated in the various opinions in both cases, and the fact of the holding tank has no bearing on the Board's decision. The case was fully considered on its merits the first time around, and we see no reason for the extraordinary remedy of reconsideration.

I, Regina E. Ryan, Clerk of the Pollution Control Board, certify that the Board adopted the above Order of the Board this 27 day of September, 1971.
