)
Respondent.)

ORDER OF THE BOARD (by R.C. Flemal):

On February 4, 1992, the Board ordered the parties to file status reports to be received on or before March 16, 1993. The petitioner filed its status report on March 16, 1993. Respondent filed its status report on March 19, 1993.

The parties state that respondent continues to review the work plan for the column leach test which addresses alleged soil contamination around certain of petitioner's tanks. Respondent states that it expects to complete its review of the column leach test by April 30, 1993, and that after that date the parties would be in a better position to determine if the matter can be concluded without a hearing. Petitioner reports that respondent has now approved the closure certification statements for five of the six remaining RCRA storage tanks. Petitioner states that it remains hopeful that the issues will be resolved, and grants a waiver of the decision deadline until March 31, 1994 to accommodate amicable resolution.

The parties are ordered to provide written status reports to be received by the Board no later than May 21, 1993.

IT IS SO ORDERED.

Board Member B. Forcade abstained.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 25th day of March, 1993, by a vote of 5-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
