v.	)	PCB 91-206
	)	(Permit Appeal)
ILLINOIS ENVIRONMENTAL	)	
PROTECTION AGENCY,	)	
	)	
Respondent.	)	

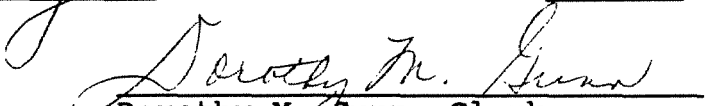

ORDER OF THE BOARD (by J. Theodore Meyer):

This matter is before the Board on petitioner Clayton Chemical's status report, received on February 4, 1994. Clayton Chemical states that since the last status report on November 3, 1993, it has met several times with the Illinois Environmental Protection Agency (Agency) regarding Clayton Chemical's new Part B application. Clayton Chemical states that the list of issues on the new permit application is narrowing, and that on January 25, 1994, it responded in writing to the Agency's latest written comments. Clayton Chemical reports that the Agency has authorized it to represent that assuming the response is sufficient, the parties are aiming toward a draft permit to be issued in June 1994.

The Board accepts Clayton Chemical's status report. The parties are directed to use their best efforts to adhere to the June 1994 date for issuance of the draft permit. This appeal has been pending for more than two years. Clayton Chemical is directed to inform the Board when the draft permit is issued, no later than 10 days after issuance. If it appears that the draft permit will not be issued by the end of June 1994, the parties shall inform the Board of the reason for the delay, and when (or if) the draft permit will be issued. In any event, Clayton Chemical and the Agency are directed to file updated status reports (or a joint report, if the parties prefer) no later than July 1, 1994.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 17<sup>th</sup> day of February, 1994 by a vote of 6-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
