ORDER OF THE BOARD (by C. A. Manning):

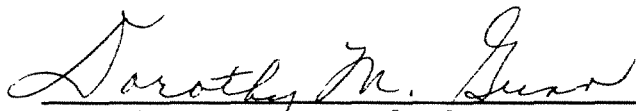

On October 18, 1993, Safety-Kleen filed a status report in accordance with the Board's order of September 9, 1993. The previous status report filed on September 1, 1993 stated that on December 11, 1992, the parties to this appeal met to discuss a resolution of the issues underlying the above-captioned matter. During that meeting, the parties developed a mutually acceptable concept as to how to proceed to resolve the appeal issues. The report noted that over the past several months, the parties have reduced these conceptual understandings to agree to language in four other closure appeals involving Safety-Kleen facilities, and each of these appeals has been voluntarily dismissed. Safety-Kleen advised that the parties were now focusing their attention on resolving the instant appeal in the same manner.

The present status report states that the parties have exchanged comments on a conceptual agreement for resolution. The Agency is in the process of finalizing and transmitting those documents to Safety-Kleen. Safety-Kleen states that it believes that this appeal can be resolved within the next forty-five days and will file further status reports to keep the Board and hearing officer apprised of the status.

The parties are directed to file an updated status report on or before December 16, 1993.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 2nd day of October, 1993, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
