

ILLINOIS POLLUTION CONTROL BOARD

May 26, 1971

In the matter of

Amendment to Municipal )  
Waste Facilities ) # R 71-13  
Timetable (SWB-10) )

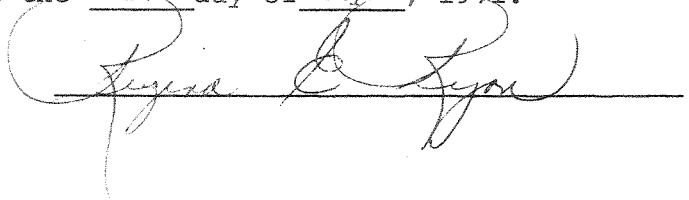

Opinion and Order of the Board (by Mr. Currie)

The revision of SWB-10 consisting of the addition of the Village of Shawneetown to the waste facilities timetable was proposed at the request of the Federal Environmental Protection Agency. Rules and Regulations SWB-10 controls discharges only to the Ohio River mainstream.

Subsequent to the scheduling of a hearing on this matter the Board received a communication from Mr. Robert Gates of the Illinois Environmental Protection Agency which conclusively demonstrated that both Shawneetown's sewage treatment plant and sewage lagoon discharge to an unnamed creek which is an intrastate tributary to the Ohio River at a point about 3 1/2 miles away from the Ohio River itself. For this reason the Shawneetown waste discharges are subject to Rules and Regulations SWB-14 which cover intrastate waters and not SWB-10

Accordingly proposal R 71-13 is dismissed and the hearing canceled.

I, Regina E. Ryan, Clerk of the Board, hereby certify that the above Opinion and Order was entered on the 26 day of May, 1971.

A handwritten signature in cursive script, appearing to read "Regina E. Ryan", is written over a horizontal line.
