

ILLINOIS POLLUTION CONTROL BOARD  
March 11, 1992

IN THE MATTER OF: )  
 )  
AMENDMENTS TO 35 ILL. ADM. ) R86-29  
CODE 604.202 OF SUBTITLE F: ) (Rulemaking)  
PUBLIC WATER SUPPLIES )  
(ALUMINUM) )

DISMISSAL ORDER

ORDER OF THE BOARD (by J. Anderson):

On July 11, 1986, the Board ordered that inquiry hearings be held to address whether it would be prudent to limit the level of aluminum in drinking water supplies until further research can be done on what the relationship is, if any, between aluminum and Alzheimer's Disease.

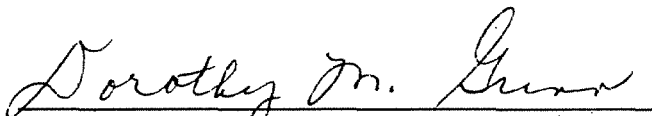

A hearing was held on November 25, 1986. There have been no filings or further Board action in this proceeding since September of 1987, except for some exhibits entered by the Hearing Officer in February of 1989.

The Board has concluded that it would not be advisable to proceed further with this Docket. The information in the record would need to be completely updated in order for the Board to even deal with the merits of the issue.<sup>1</sup>

Accordingly, this proceeding is dismissed.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 11<sup>th</sup> day of March, 1992, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board

---

<sup>1</sup> We note that USEPA does not have a Maximum Contaminant Level (MCL) for aluminum. A federal Secondary Maximum Contaminant Level (SMCL) exists for aesthetic reasons.
