ORDER OF THE BOARD (by J. Theodore Meyer):

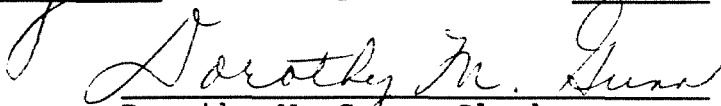

On January 28, 1994, petitioner Acme Steel Company (Acme) filed a status report in this proceeding. This status report is in response to a November 4, 1993 Board order, directing Acme to file a status report by January 15, 1994. We note that Acme did not include a motion for leave to file this report *instanter*, but we will accept the status report in the interests of taking further action on this case.

Acme again states that it is working with the Illinois Environmental Protection Agency (Agency) in pursuing permanent relief from the standards at issue in these appeals. Acme states that it has prepared a draft petition for adjusted standard and supporting documentation, which Acme submitted, in November, to the Agency for review. Acme states that the Agency recently completed its review of those materials and sent comments to Acme in a January 21, 1994 letter. Acme estimates that it is prepared to file the petition for adjusted standard with the Board within 30 days. Acme recommends that this matter be stayed for 60 days pending resolution of the adjusted standard petition.

The Board points out that this case was begun in 1991, and that we cannot continue to allow the case to linger indefinitely. Acme is directed to file an updated status report no later than March 25, 1994.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 3rd day of February, 1994, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
