71-188

Opinion and Order of the Board (by Mr. Currie):

This variance petition sought permission to burn four farm buildings despite the open-burning regulations. We scheduled a hearing to determine whether, as required for a variance, compliance with the law would impose an arbitrary or unreasonable hardship: Just before the hearing date, however, the petitioners reported that they had sold the disputed buildings and the lumber had been removed from the premises without burning. Thus a potential air pollution problem has been turned into a reusable resource, and there is no controversy before us for decision. The motion to withdraw the petition for variance is granted.

I, Regina E. Ryan, Clerk of the Pollution Control Board, certify that the Board adopted the above Opinion and Order this
30 day of September, 1971.
