DIVISION)

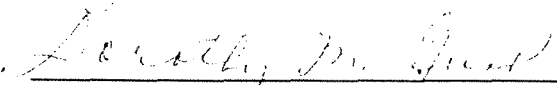

ORDER OF THE BOARD (by C.A. Manning):

On July 22, 1993, the Board granted Quantum Chemical Corporation (Quantum) additional time in which to file information originally requested in our March 25, 1993 order. Quantum was directed to assemble test data and provide information regarding conditions in Aux Sable Creek (see In the Matter of Quantum Chemical Corporation USI Division, AS 93-1 (July 22, 1993)) on or before August 22, 1993. On August 23, 1993, Quantum complied with the Board's order and filed "Submission of Additional Data for Inclusion in Petitioner's First Amended Petition For an Adjusted Standard ."

The Board hereby accepts the petition for an adjusted standard filed by Quantum on February 11, 1993. Though a citizen request for a hearing has been made in this matter, hearing will not be set until such time as the Illinois Environmental Protection Agency (Agency) has had the opportunity to comment on Quantum's additional information. If the Agency intends to amend its recommendation filed on July 16, 1993, the Agency is directed to do so on or before September 23, 1993. If nothing is received from the Agency, this matter will proceed to hearing.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 9th day of September, 1993, by a vote of 7-0.
