

ILLINOIS POLLUTION CONTROL BOARD  
December 1, 1994

IN THE MATTER OF: )  
)  
PETITION OF REYNOLDS ) AS 91-8  
METAL COMPANY FOR ADJUSTED ) (Adjusted Standard)  
STANDARD FROM 35 ILL. ADM. )  
CODE 218.980 )

ORDER OF THE BOARD (by C.A. Manning):

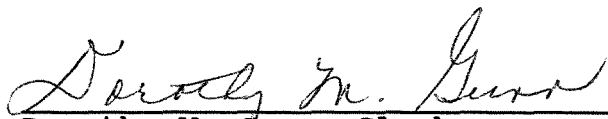

This matter is before the Board pursuant to an interim status report filed by Reynolds Metal Company (Reynolds) on November 16, 1994. On September 15, 1994, we extended the stay in this case until December 1, 1994 while Reynolds awaits U.S. EPA's final promulgation of a site-specific control requirement for Reynold's aluminum rolling operations. We asked petitioner to file an updated status report addressing the U.S.EPA's progress, and if necessary a request for an extension of the stay.

In Reynolds' most recent status report, the company states that the proposed rule has been published in the *Federal Register* by the USEPA and that the USEPA is currently finalizing this rule. Reynolds also reports that USEPA has informed the company that the final rule has been delayed at USEPA headquarters for non-substantive reasons, but the rule appears to be on a course for adoption. USEPA indicates the rule will be published as a final rule in the near future, but an exact date is not known at this time.

Reynolds requests an extension of the stay beyond December 1, 1994. Reynolds' motion is hereby granted. The stay in this matter shall be extended until March 16, 1995. Reynolds is directed to file a status report on or before Thursday, March 9, 1995 indicating the status of the federal rule. If, however, the rule is finally promulgated before March 9, 1995, Reynolds is requested to file the appropriate motion.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 1<sup>st</sup> day of December, 1994, by a vote of 7-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
