FOR ADJUSTED STANDARD FROM )  
35 ILL. ADM. CODE 218.966 )  
and 218.986 )

AS 92-14  
(Adjusted Standard)

ORDER OF THE BOARD (by R.C. Flenal):

On December 18, 1992, Quantum Chemical Corporation, USI Division (Quantum) filed an amended petition for adjusted standard from portions of the Board's air pollution regulations found at Part 218. On December 23, 1992 the Illinois Environmental Protection Agency (Agency) filed a motion requesting an extension of time in which to file the Agency's response to the amended petition in this matter. The response is currently due on January 20, 1993; the Agency requests an extension until February 22, 1993. The Agency observes that there are many complex issues presented in this matter and that, although Quantum and the Agency have previously met to discuss some of these issues, further discussion and technical review are needed. The Agency asserts that Quantum does not object to the extension.

The Agency's motion is hereby granted. The Agency response is due on February 22, 1993.

In addition, in its amended petition at page 3, Quantum requests incorporation of the Board record from docket R91-28<sup>1</sup>. The Board denies this request. (See, 35 Ill. Adm. Code 101.106.) Quantum is free to file whatever portions of the R91-28 record it deems pertinent to its petition.

Also, Quantum requests a stay of the operation of the effective date of the applicable regulations, since its petition was filed within 20 days of the effective date of the regulation. The Board notes that since Quantum filed its petition within 20 days of the effective date of the regulation to Quantum, a stay is automatically effective during the pendency of this action for the Quantum facility pursuant to Section 28.1(f) of the Environmental Protection Act.
