ORDER OF THE BOARD (by G. T. Girard):

On January 15, 1993, the parties filed a status report as directed by the Board's order of October 1, 1992. The parties report that this matter is an appeal by Olin of the decision by IEPA to deny the incinerator portion of Olin's application for a RCRA Part B Hazardous Waste Management Permit for Olin's Main Plant facility in East Alton, Illinois. Pursuant to the negotiations, Olin conducted a trial burn of its hazardous waste incinerator on December 18, 1991 and submitted a report of the results to IEPA on March 13, 1992. Both parties expect that any remaining issues will be resolved by mutual agreement, once information from the incinerator trial burn is analyzed by IEPA. When IEPA has reviewed the trial burn data, a draft permit will be issued for the incinerator. Both parties expect that this draft permit may be acceptable to Olin, leading to the issuance of a final permit and dismissal of this appeal. Based on this belief, the parties have not initiated discovery in connection with this matter.

The parties assert that "the time period for review of the trial burn data and for determining the terms of a draft Part B Permit has been delayed". IEPA anticipates that its evaluation may require several additional months. Because the parties do not anticipate that the matter will be settled by the former May 16, 1993 decision deadline, Olin has filed an additional waiver of decision deadline until May 16, 1994.

The parties are directed to file an updated status report on or before April 15, 1993. The updated report shall contain an estimated date for the completion of this matter.

IT IS SO ORDERED.

0138-0381

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above order was adopted on the 21<sup>st</sup> day of January, 1992, by a vote of 6-0.
