

ILLINOIS POLLUTION CONTROL BOARD
May 12, 1971

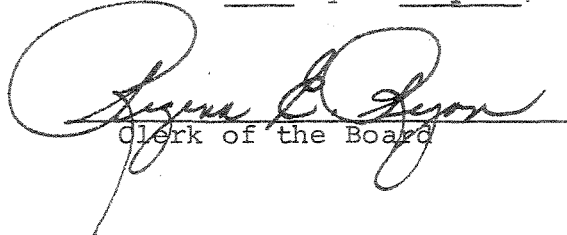

CITY OF LAKE FOREST)
)
 v.) PCB # 71-21
)
 ENVIRONMENTAL PROTECTION AGENCY)

Opinion of the Board (By Mr. Lawton)

On February 16, 1971, the City of Lake Forest filed a petition with the Board stating that on February 3, 1971, the Environmental Protection Agency had denied petitioner's request for the issuance of a permit to enable construction of a sanitary sewer to serve twenty-seven single family residences located in the city and to connect the sewer to an interceptor sewer of the North Shore Sanitary District. The petition requests a review of the permit denial aforesaid and has been docketed as an appeal pursuant to Section 40 of the Environmental Protection Act and section 502 of the Rules and Regulations of the Pollution Control Board.

On May 6, 1971, the Board received a letter from the City attorney of Lake Forest advising that the Environmental Protection Agency had granted the permit for construction of the sanitary sewer and that the city's request for connection permits had been withdrawn. The letter requests that the pending appeal petition be withdrawn without prejudice. On the present state of the record there is nothing pending before the Board on which it can act or render a decision. It is the Order of the Pollution Control Board that the petition of the City of Lake Forest be dismissed without prejudice.

I, Regina E. Ryan, Clerk of the Board, hereby certify that the above Opinion and Order was approved on the 12 day of May, 1971.

Clerk of the Board
