

ILLINOIS POLLUTION CONTROL BOARD
February 28, 1991

IN THE MATTER OF:)
RCRA DELISTINGS) R90-17
) Identical in Substance
) Rulemaking

ADOPTED RULES. FINAL ORDER.

ORDER OF THE BOARD (by J. Anderson):

Pursuant to Section 22.4(a) of the Environmental Protection Act (Act), the Board is amending the RCRA hazardous waste regulations in 35 Ill. Adm. Code 720 and 721.

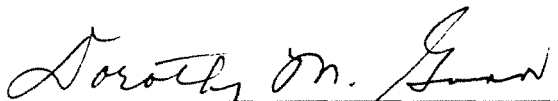

Section 22.4 of the Act governs adoption of regulations establishing the RCRA program in Illinois. Section 22.4(a) provides for quick adoption of regulations which are "identical in substance" to federal regulations; Section 22.4(a) provides that Title VII of the Act and Section 5 of the Administrative Procedure Act shall not apply. Because this rulemaking is not subject to Section 5 of the Administrative Procedure Act, it is not subject to first notice or to second notice review by the Joint Committee on Administrative Rules (JCAR). The federal RCRA regulations are found at 40 CFR 260 through 270. This rulemaking makes technical changes to the Board's hazardous waste delisting procedures, based on USEPA's delegation of delisting authority to Illinois at 55 Fed. Reg. 7320, March 1, 1990.

This Order is supported by an Opinion adopted this same day.

The text of the amendments is attached to this Order. The complete text will appear in the Illinois Register in the near future. The Board will allow 30 days for post-adoption comment from the agencies involved in the authorization process before filing the rules.

IT IS SO ORDERED

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 28th day of February, 1991, by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board

TITLE 35: ENVIRONMENTAL PROTECTION
SUBTITLE G: WASTE DISPOSAL
CHAPTER I: POLLUTION CONTROL BOARD

SUBPART C: RULEMAKING PETITIONS AND OTHER PROCEDURES

Section 720.120 Rulemaking

- a) Any person may petition the Board to adopt as State regulations rules which are identical in substance with newly-adopted federal amendments or regulations. The petition shall take the form of a proposal for rulemaking pursuant to 35 Ill. Adm. Code 102. The proposal shall include a listing of all amendments to 40 CFR 260 through ~~265~~-266 and 268 which have been made since the last preceding amendment or proposal to amend 35 Ill. Adm. Code 720 through ~~725~~-726 and 728, pursuant to Section 22.4(a) of the Environmental Protection Act.
- b) Any person may petition the Board to adopt amendments or additional regulations not identical in substance with federal regulations. Such proposal shall conform to 35 Ill. Adm. Code 102 and Title VII

and Section 22.4(b) or 22.4(c) of the Environmental Protection Act.

(Source: Amended at 15 Ill. Reg. , effective)

Section 720.122 Waste Delisting

- a) Any person seeking to exclude a waste from a particular generating facility from the lists in 35 Ill. Adm. Code 721.Subpart D may file a petition, as specified in subsection (n). The Board will grant the petition if:
- 1) The petitioner demonstrates that the waste produced by a particular generating facility does not meet any of the criteria under which the waste was listed as a hazardous or acute hazardous waste; and
 - 2) If the Board determines that there is a reasonable basis to believe that factors (including additional constituents) other than those for which the waste was listed could cause the waste to be a hazardous waste, that such factors do not warrant retaining the waste as a hazardous waste. A Board determination under the preceding sentence must be made by reliance on, and in a manner consistent with, "Petitions to Delist -- A Guidance Manual", incorporated by reference in Section 720.111.A waste which is so excluded, however, still may be a hazardous waste by operation of 35 Ill. Adm. Code 721.Subpart C.
- b) Listed wastes and mixtures. A person may also petition the Board to exclude from 35 Ill. Adm. Code 721.103(a)(2)(B) or (C), a waste which is described in these Sections and is either a waste listed in 35 Ill. Adm. Code 721.Subpart D, or is derived from a waste listed in that Subpart. This exclusion may only be granted for a particular generating, storage, treatment or disposal facility. The petitioner shall make the same demonstration as required by subsection (a). Where the waste is a mixture of a solid waste and one or more listed hazardous wastes or is derived from one or more listed hazardous wastes, the demonstration must be made with respect to the waste mixture as a whole; analyses must be conducted for not only those constituents for which the listed waste contained in the mixture was listed as hazardous, but also for factors (including additional constituents) that could cause the waste mixture to be a hazardous waste. A waste which is so excluded may still be a hazardous waste by operation of 35 Ill. Adm. Code 721.Subpart C.
- c) Ignitable, corrosive, reactive and toxicity characteristic wastes. If the waste is listed in codes "I", "C", "R" or "E" in 35 Ill. Adm. Code 721.Subpart D:
- 1) The petitioner shall demonstrate that the waste does not exhibit the relevant characteristic for which the waste was listed, as defined in 35 Ill. Adm. Code 721.121, 721.122, 721.123 or 721.124, using any applicable methods prescribed in those Sections. The petitioner shall also show that the waste does not exhibit any of the other characteristics, defined in those

Sections, using any applicable methods prescribed in those Sections;

- 2) Based on a complete petition, the Board will determine, if it has a reasonable basis to believe that factors (including additional constituents) other than those for which the waste was listed could cause the waste to be hazardous waste, that such factors do not warrant retaining the waste as a hazardous waste. A Board determination under the preceding sentence must be made by reliance on, and in a manner consistent with, "Petitions to Delist -- A Guidance Manual", incorporated by reference in Section 720.111. A waste which is so excluded, however, may still be a hazardous waste by operation of 35 Ill. Adm. Code 721.Subpart C.

- d) Toxic waste. If the waste is listed in code "T" in 35 Ill. Adm. Code 721.Subpart D:
 - 1) The petitioner shall demonstrate that the waste:
 - A) Does not contain the constituent or constituents (as defined in 35 Ill. Adm. Code 721.Appendix G) that caused USEPA to list the waste, using the appropriate test methods prescribed in 35 Ill. Adm. Code 721.Appendix C; or
 - B) Although containing one or more of the hazardous constituents (as defined in 35 Ill. Adm. Code 721.Appendix G) that caused USEPA to list the waste, does not meet the criterion of 35 Ill. Adm. Code 721.111(a)(3) when considering the factors used in 35 Ill. Adm. Code 721.111(a)(3)(A) through (K) under which the waste was listed as hazardous; and
 - 2) Based on a complete petition, the Board will determine, if it has a reasonable basis to believe that factors (including additional constituents) other than those for which the waste was listed could cause the waste to be hazardous waste, that such factors do not warrant retaining the waste as a hazardous waste. A Board determination under the preceding sentence must be made by reliance on, and in a manner consistent with, "Petitions to Delist -- A Guidance Manual", incorporated by reference in Section 720.111.
 - 3) The petitioner shall demonstrate that the waste does not exhibit any of the characteristics, defined in 35 Ill. Adm. Code 721.121, 721.122, 721.123 or 721.124, using any applicable methods prescribed in those Sections.
 - 4) A waste which is so excluded, however, may still be a hazardous waste by operation of 35 Ill. Adm. Code 721.Subpart C.

- e) Acute hazardous waste. If the waste is listed with the code "H" in 35 Ill. Adm. Code 721.Subpart D:

- 1) The petitioner shall demonstrate that the waste does not meet the criterion of 35 Ill. Adm. Code 721.111(a)(2); and
 - 2) Based on a complete petition, the Board will determine, if it has a reasonable basis to believe that factors (including additional constituents) other than those for which the waste was listed could cause the waste to be hazardous waste, that such factors do not warrant retaining the waste as a hazardous waste. A Board determination under the preceding sentence must be made by reliance on, and in a manner consistent with, "Petitions to Delist -- A Guidance Manual", incorporated by reference in Section 720.111.
 - 3) The petitioner shall demonstrate that the waste does not exhibit any of the characteristics, defined in 35 Ill. Adm. Code 721.121, 721.122, 721.123 or 721.124, using any applicable methods prescribed in those Sections.
 - 4) A waste which is so excluded, however, may still be a hazardous waste by operation of 35 Ill. Adm. Code 721.Subpart C.
- h) Demonstration samples must consist of enough representative samples, but in no case less than four samples, taken over a period of time sufficient to represent the variability or the uniformity of the waste.
- i) Each petition must include, in addition to the information required by subsection (n):
- 1) The name and address of the laboratory facility performing the sampling or tests of the waste;
 - 2) The names and qualifications of the persons sampling and testing the waste;
 - 3) The dates of sampling and testing;
 - 4) The location of the generating facility;
 - 5) A description of the manufacturing processes or other operations and feed materials producing the waste and an assessment of whether such processes, operations or feed materials can or might produce a waste which is not covered by the demonstration;
 - 6) A description of the waste and an estimate of the average and maximum monthly and annual quantities of waste covered by the demonstration;
 - 7) Pertinent data on and discussion of the factors delineated in the respective criterion for listing a hazardous waste, where the demonstration is based on the factors in 35 Ill. Adm. Code 721.111(a)(3);

- 8) A description of the methodologies and equipment used to obtain the representative samples;
- 9) A description of the sample handling and preparation techniques, including techniques used for extraction, containerization and preservation of the samples;
- 10) A description of the tests performed (including results);
- 11) The names and model numbers of the instruments used in performing the tests; and
- 12) The following statement signed by the generator or the generator's authorized representative:

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this demonstration and all attached documents, and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

- j) After receiving a petition, the Board may request any additional information which the Board needs to evaluate the petition.
- k) An exclusion will only apply to the waste generated at the individual facility covered by the demonstration and will not apply to waste from any other facility.
- l) The Board will exclude only part of the waste for which the demonstration is submitted if the Board determines that variability of the waste justifies a partial exclusion.

BOARD NOTE: See "Petitions to Delist Hazardous Wastes -- A Guidance Manual", incorporated by reference in Section 720.111.

- a) m) -General delistings or d-Delisting of specific wastes from specific sources which have been adopted by USEPA may be proposed as -s-State regulations which are identical in substance pursuant to Section 720.120(a).
- b) n) Delistings which have not been adopted by USEPA may be proposed to the Board pursuant to Section 720.120(b); however, this does not infer that the Board has authority to adopt such delistings. The Board will determine whether it has authority to delist such wastes on a case-by-case basis, a petition for adjusted standard pursuant to 35 Ill. Adm. Code 106.Subpart G. The justification for the adjusted standard is as specified in subsections (a) et seq., as applicable to the waste in question.

- 1) In accordance with 35 Ill. Adm. Code 106.710, the petitioner shall serve copies of the petition, and any other documents filed with the Board, on USEPA at the following addresses:

USEPA
Office of Solid Waste and Emergency Response
Washington, D.C. 20460

USEPA, Region V
230 S. Dearborn Street
Chicago, IL 60604

- 2) The Board will mail copies of all opinions and orders to USEPA at the above addresses.
- 3) In conjunction with the normal updating of the RCRA regulations, the Board will maintain, in 35 Ill. Adm. Code 721.Appendix I, a listing of all adjusted standards granted by the Board.
- e q) The Agency may determine in a permit or a letter directed to a generator that, based on 35 Ill. Adm. Code 721, a waste from a particular source is not subject to these regulations. Such a finding is evidence against the Agency in any subsequent proceedings but shall not be conclusive with reference to other persons or the Board.
- d p) ~~-The Board incorporates by reference 40 CFR 260.22 (1988), as amended at 54 Fed. Reg. 27116, June 27, 1989. This Section incorporates no future amendments or editions. -Any petition to delist directed to the Board or request for determination directed to the Agency -shall include the information required by 40 CFR 260.22 and a showing that the delisting needs to be adopted as a part of the Illinois RCRA program.-must include a showing that the waste will be generated or managed in Illinois.~~
- e q) ~~-Waste delistings will not be approved if the result would make the Illinois program less than substantially equivalent to the federal.-~~
The Board will not grant any petition which would render the Illinois RCRA program less stringent than if the decision were made by USEPA.
- f r) ~~Delistings -will- apply only within Illinois. Generators shall comply with 35 Ill. Adm. Code 722 for waste which is hazardous in any state to which it is to be transported.~~

SUBPART B: CRITERIA FOR IDENTIFYING THE CHARACTERISTICS OF HAZARDOUS WASTE AND FOR LISTING HAZARDOUS WASTE

Section 721.110 Criteria for Identifying the Characteristics of Hazardous Waste

~~The basis of the hazardous waste characteristics is given at 40 CFR Section 261.10. The characteristics are found at Section 721.120 et seq.~~

- a) USEPA identifies and defines a characteristic of hazardous waste in Subpart C only upon determining that:
 - 1) A solid waste which exhibits the characteristic may:
 - A) Cause, or significantly contribute to, an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness; or
 - B) Pose a substantial present or potential hazard to human health or the environment when it is improperly treated, stored, transported, disposed of or otherwise managed; and

2) The characteristic can be:

- A) Measured by an available standardized test method which is reasonable within the capability of generators of solid waste or private sector laboratories which are available to serve generators of solid waste; or
- B) Reasonably detected by generators of solid waste through their knowledge of their waste.

b) Delisting procedures are contained in 35 Ill. Adm. Code 720.122.

(Source: Amended at 15 Ill. Reg. , effective)

Section 721.111 Criteria for Listing Hazardous Waste

a) ~~USEPA's criteria for listing hazardous waste are given at 40 CFR Section 261.11.~~ USEPA lists a solid waste as a hazardous waste only upon determining that the solid waste meets one of the following criteria:

1) It exhibits any of the characteristics of hazardous waste identified in Subpart C; or

b 2) ~~"P" list: Acute hazardous wastes are listed in Section 721.133(e). Acute hazardous wastes are those which have been found to be fatal. Acute toxic wastes are those which have-~~ Acute hazardous waste. It has been found to be fatal to humans in low doses or, in the absence of data on human toxicity, it has been shown in studies to have an oral LD 50 toxicity (rat) of less than 50 mg/kg, an inhalation LC 50 toxicity (rat) of less than 2 mg/L, or a dermal LD 50 toxicity (rabbit) of less than 200 mg/kg or is otherwise capable of causing or significantly contributing to an increase in serious irreversible or incapacitating reversible, illness.

~~BOARD NOTE: (-Waste listed in accordance with these criteria -will be-are designated Acute Hazardous Waste-)-.~~

3) Toxic waste. It contains any of the toxic constituents listed in Appendix H and, after considering any of the following factors, USEPA concludes that the waste is capable of posing a substantial present or potential hazard to human health or the environment when improperly treated, stored, transported or disposed of, or otherwise managed:

BOARD NOTE: Substances are listed in Appendix H only if they have been shown in scientific studies to have toxic, carcinogenic, mutagenic or teratogenic effects on humans or other life forms.

- A) The nature of the toxicity presented by the constituent.
- B) The concentration of the constituent in the waste.

- C) The potential of the constituent or any toxic degradation product of the constituent to migrate from the waste into the environment under the types of improper management considered in subsection (a)(3)(G).
- D) The persistence of the constituent or any toxic degradation product of the constituent.
- E) The potential for the constituent or any toxic degradation product of the constituent to degrade into nonharmful constituents and the rate of degradation.
- F) The degree to which the constituent or any degradation product of the constituent bioaccumulates in ecosystems.
- G) The plausible types of improper management to which the waste could be subjected.
- H) The quantities of the waste generated at individual generation sites or on a regional or national basis.
- I) The nature and severity of the human health and environmental damage that has occurred as a result of the improper management of the wastes containing the constituent.
- J) Action taken by other governmental agencies or regulatory programs based on the health or environmental hazard posed by the waste or waste constituent.
- K) Such other factors as may be appropriate.

BOARD NOTE: Wastes listed in accordance with these criteria are designated toxic wastes.

- b) USEPA may list classes or types of solid waste as hazardous waste if USEPA has reason to believe that individual wastes, within the class or type of waste, typically or frequently are hazardous under the definition of hazardous waste found in Section 1004(5) of the Resource Conservation and Recovery Act (42 USC 6901 et seq.)
- c) -USEPA's criteria for listing hazardous waste are given at 40 CFR Section 261.11. -USEPA will use the criteria for listing specified in this Section to establish the exclusion limits referred to in Section 721.105(c).
