

APR 25 2006

STATE OF ILLINOIS
Pollution Control Board

①

AC06-32

To The Clerk of Pollution Control Board
100 W. Randolph Suite 11-500
Chicago, Ill. 60601-3218

I David Skidmore am contesting
the violations I received 4151 L.C.S. 5/42(b)(4)
from the Jackson County Health Department
As David Skidmore AC06 Site Code 077800501.

I David Skidmore purchased this building
and property from the previous owner
the First State Bank of Steelville, Steelville
Ill.

I ask the bank about all the stuff,
cars, trash, mobile home, etc that is on
the property if I was the owner of
everything left on the property they bank
stated every thing there was mine and
my responsibility. But then the next
week the bank hired someone to trespass
on my property to remove a tractor
and an old car from these premises.

I contacted an attorney about removing
the other contents that was in Anthony
and Elwood Glasper's names. The Attorney
suggested send them a 10 day notice to
remove all their belongings from the
premises. The letter was sent to them
(Glasper's). They called promising to
remove all ~~their~~ their junk which

(2)

they illegally entered and destroyed some of their property that I have been fixing up and cleaning up and repairing. They removed only a welder and a video camera kit. They were suppose to remove all the cars, mobil home, trash, etc. They left behind.

They (Glaspers) tore the walls out the side of the mobil home to get the big welder out of there. They also threw trash out of the mobil home on the ground.

5-29-05 Two weeks later a man approached me (David Skidmore) and said Toni Glasper sold him the little trailer sitting in the corner of the property which I already had filled with trash and more trash from the property that I was going to take to the dump to dispose of. The man shoveled all the trash off the trailer on to the ground and left with the empty trailer. The next evening when I went to check on the property someone left 10 bags of trash on the property. Do not know ~~who's~~ who's that was neither.

I have been trying my best to clean up the property inside and

(3)

I am disabled and on a set income
It is very hard to do when things
are so costly.

No one gave me any hassle until
I started working on clearing this
mess up. I never added any trash
or debris to this property. I have been
cleaning it up and disposing it into
the dumpsters so I can afford them.
In the meantime my sister Doris Harrison
agreed to purchase this place from
me. She is an over the road truck driver
who is only home some weekends. She
hired some contractors to come in
and clean the property up and to remodel
the exterior and interior which they
were there making ~~to~~ a bigger mess
and burned some lumber they tore
out of the interior. I didn't know
they were also bringing in stuff
from some of their other job sites
hoping to rid of them.

Doris Harrison had to fire them
also the police had to be called a couple
of times for them ~~still~~ stealing her
building materials. The Jackson County
police department did an investigation
to find out the contractors were bogus
and in breach of contract. So Doris
Harrison, lost money, and material. Also
more trash left to be cleaned up.

(4)

My mother (Sandra Skidmore) and I both talked to Mr. Jerry. We have been working very hard to clean up this property with the little bit of money I get every month. Mr. Jerry should be familiar with the trashed up property. While cleaning up I happen to find pict. was back when it was the Glaspers. So I don't see how I can be blamed for making this an open dump site.

In ~~June~~^{July} Mr. Jerry came out for the first time I ever met him. He told me I was not allowed to burn only trees, and lawn leaves. I told him no problem. I did not burn any more. On July 20, 2005 someone set a fire to the grass between the property line and the lagoon and to the one pile of trash. This happened in the middle of the night. I never knew about this until I happen to be on my way to the bank in Campbell hill and saw the smoldering smoke. I stopped and made sure nothing was going to blaze and burn everything down hoping that it was going out on its own as it was. I never put the fires. ~~was~~
~~was~~. On July 21, 2005 Mr. Jerry came out the fire next to the build that was set not by me nor any of my family members was still

(5)

Smoldering my mother Sandra Skidmore and father Gene Skidmore were helping pile more stuff up to dispose of, in to one big pile then put it in a dumpster. When Mr. Terry thought on of my family members set the fire. Only thing they were trying to do is empty out all the trash that was left upstairs. Not intending on burning anything but get all the trash, etc in one big pile and use a tractor with a bucket to put it in a big roll off dumpster in I could afford to get another one in there. There was not any intentions on making any bigger mess, open dump site or open burn site. We were just trying to get this pig pen cleared up.

I sold the property to my sister Doris Harrison in June 2005 all the legal and binding paper work finally got done on 4-9-06. The property is completely cleared up and all taken away. I am sending you copies of all the receipts and pictures of the before and after and the pictures of now. The mobil home was being removed from the premises but blocked out the tires. They are coming back to remove the mobil home with bigger equipment. I David Skidmore & Doris Harrison am protesting the fines and charges that I am being charged for

(L)

This was never intended on being an open dump or burn site what so ever.

It seemed like a fighting battle between the more I took out the more mess people were making for me.

I am sending copies of receipts for proof of trash, etc. removal and the roll offs that were brought there and extra weight for trash removal.

Doris Harrison
2166 Highway 151
Ava, Ill 62907
