IN THE MATTER OF: )  
 )  
PROCEDURAL RULES REVISION ) R88-5(B)  
35 ILL. ADM. CODE 102 AND )  
106 (Subparts D, E, and F) )

PROPOSED RULE.     SECOND FIRST NOTICE

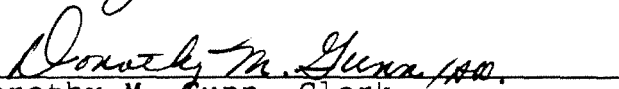

CONCURRING OPINION (by B. Forcade):

On page four of the Opinion, the majority declines to accept language offered by the Illinois Environmental Protection Agency and the Department of Energy and Natural Resources that would have established detailed information requirements for the filing of site-specific regulatory proposals. I would have included such requirements.

Since most Board denials of site-specific regulatory requests are based on failure to provide enough information to determine what the impact of the rule change would be, I believe we should have provided as much guidance as possible to the regulated community on what types of information the Board would like to see. Accordingly, I concur.
