TO: Illinois Pollution Control Board
RE: Case PBC 2006-184-Opposition to Expansion
DATE: January 8, 2007

Please be advised that I gave testimony in 2006 in opposition to the expansion of the PDC hazardous waste landfill. Any expansion to this site compounds the already existing danger to the public's health and safety.

I am a property owner and resident of Peoria County since 1979. I fully support the vote of the Peoria County Board to deny the expansion permit based on the criteria of their votes. Their votes were made after much thought and careful decision making.

This landfill is over a water aquifer that is vital to the health and prosperity of the citizens of not only Peoria County, but this aquifer connects to water supplies throughout many Illinois counties.

I urge you to sustain the decision of the Peoria County Board.

Thank You.
