I am writing to let you know that I am against PDC. new permit. I live on Farmington road for over 50 years. I get my water from Pleasant Valley. The supply comes from 3 wells in the valley, not far from the disposal land fill. It is very hard to understand how the land fill can keep putting toxic waste, mountain high and keep our water pure. What if it does develop a leak, how will we know. After people become ill.

Thank you
