I am ~~Pol~~ ~~lution~~ ~~Control~~ ~~Board~~ + PDC

Not be able to expand their
landfill for the health and
safety of our citizens in
this community. What were
they thinking in the first
place, to build a hazardous
waste landfill over the
top of our water supply.

Our environment is in enough
danger without adding more to
the problems. We need to take
care of the precious resources
we have been given for our
children and future generations.
we need to start cleaning up
the mess we have already

Created. Thank you for your
time.
