To Whom It May Concern,

I have received your notice that I must clean up my yard and I wanted to let you know that I am in the process of doing so . I do however need some more time to get this done as my wife and I are both disabled and we have very limited income.

I would like to explain how this problem came about. We have lived here at this residence for 7 years and no one has ever complained about us before. We had gotten a new neighbor and they turned us in to you folks and they have since then moved out of the area. But now we have this work to do and I am just not in good health. I had a place in another town and I had sold it and I had to move all of the cars here to my home and since then my wife had to have a hip surgery and is going to have both of her knees replaced and I need my knees replaced and have had surgery one before and it did not help me too much. But , I would like to let you know that I have a hobby of working on cars and that is why I had so many of them. It has been a love of mine for all of my life and now I can not get the means as quickly to get this yard in order.

I can not afford to get an attorney and I can not afford to pay the fines but I would like to let you know that I am working on the yard and I am making some progress.

1. I have some friends that are putting together the shed for my lawn mowers
2. I have gotten a price on how much for each tire to be taken to a tire shop
3. I am going to get some friends over to get my other shed up so that I can put some of the cars in there.
4. My son and I are in the process of cleaning up the yard.
5. I am working on some of the cars because my Doctor told me that the work on them will help me from getting so stiff. It is a great love of mine too.

So to sum this up , this whole issue has taken a toll on me and my wife both mentally and physically . I have a nervous condition that I do take medication for and please give me the time I need to get the yard cleaned up. This has just been a bad year for us with trying to help our kids and with our health issues and the closing of the old garage. We are good people and we are not trying to cause any one any problems with this issue.
