OPEN DUMP INSPECTION NARRATIVE

This unpermitted open dump was inspected on August 31, 2007, by Douglas Toole of the Vermilion County Health Department. The weather was clear, dry, breezy and about 80 degrees Fahrenheit. Five photos were taken of the site.

The site is located in Vermilion County, at 546 Highland Park Road in rural Danville, Illinois. The site is near Latitude 40.0795 and Longitude -87.6150.

By way of history, Connie Yount was cited on September 7, 2004 for the open dumping and open burning of waste – specifically a vacant mobile home on her property. Ms. Yount was issued an ACWN on October 15, 2004, and the property was returned to compliance on December 7, 2007.

The Vermilion County Health Department is involved in a county ordinance violation case against Ms. Yount concerning a derelict vehicle, a deteriorating mobile home, tires, household garbage and other refuse on her property at 546 Highland Park Road in rural Danville, Illinois. That case is recorded in Vermilion County Circuit Court as case #2007-OV-02. Ms. Yount was found guilty of the charges on May 25, 2007, received a fine and was ordered by the judge to clean up the property. She is next scheduled to appear in court regarding the case for a hearing on September 26, 2007.

INSPECTORS FINDINGS

I arrived at the property at 3:00 p.m. on August 31, 2007 to perform a pre-arranged site inspection. Ms. Yount was not present, but Charles Yount, her son, and Tom Eble, the occupant of the second mobile home on the property, spoke with me and accompanied me during the inspection.

LPC #1838045028

Danville / Yount

Page 2 of 4

As part of the inspection, we went to the southeast corner of the property, where on May 24, 2007, I had observed a shallow pit filled with bags of household garbage (see two May 24, 2007 photos attached to this inspection report). The shallow pit now contained partially burned boards, metal cans and other household garbage, as well as an unburned cardboard box and an unburned wooden frame (see photos 1-4). Mr. Yount said all the garbage I had observed on May 24, 2007 had been removed, and the pit was empty as recently as two days ago. He said someone may have snuck onto the property, dumped a large load of refuse into the pit, and then burned it without his knowledge. Ms. Yount's property has a wooden privacy fence along its south and west sides, and a field of tall corn on its east side (photo 4). I did not observe any broken corn stalks in the field near the pit which would indicate that a pickup truck had recently driven through it.

West of Ms. Yount's mobile home I observed a small barbecue pit containing partially burned metal cans and other household garbage (photo 5). Mr. Yount said the cans and household garbage were probably accidentally swept into the pit along with some grass clippings and brush from the yard that were burned.

Five other photos were taken of the site, showing a derelict vehicle, tires, demolition debris, household garbage and other refuse. Those photos are part of the ordinance violation case, but are not part of the open dumping and open burning case alleged in this report, and are not included in this packet.

Before leaving the property, I told Mr. Yount and Mr. Eble again that the burning of household garbage and other refuse was a violation of state law. I left the site at about 4:00 p.m.

On the Inspection Report Checklist for this reinspection, I estimated that there were 10 cubic yards of waste associated with the fire on the site. No measurements were performed to arrive at that estimation, only my observations at the time. The actual amount of waste on the site associated with the fire may vary significantly from that estimation.
