## BOARD ADOPTS GASOLINE VOLATILITY REGULATION FOR 1991

On January 10, 1991, the Board adopted regulations pertaining to gasoline volatility for the summer ozone season of 1991. The rule is very similar to the federal regulation which is scheduled to take effect in 1992. Because the Chicago metropolitan area remains a non-attainment area for ozone, the Board felt it necessary to have a regulation in place for the summer of 1991. The rule was proposed by the Chicago Lung Association and the USEPA, the State EPA and the Illinois Petroleum Council all participated in the rulemaking process. The regulation is expected to reduce ozone precursors by 66 tons per day. Questions should be directed to Timothy Dwyer at (312) 814-6923.
