RECEIVED
CLERK'S OFFICE

SEP 11 2008

STATE OF ILLINOIS
Pollution Control Board

Dear Clerk,

As a Peoria County resident, I am deeply concerned about what is allowed in our landfill, and the potential for impact on water, land and air as a result.

After attending the public hearing for Peoria Disposal Company's appeal to delist electric arc furnace dust, my request is that it not be de-listed.

It's hard to be assured when a company hires their own research scientist to do a fairly short term study on making a pollutant/contaminant safe - particularly when PDC has been pushing for a long time - very persistantly thru many Peoria County and EPA denials - to allow hazardous

waste at the Peoria County
Landfill. - an expansion of what is
already accepted.

Once it becomes possible to "delist"
hazardous waste, what would stop
many other requests to de-list by
other companies, it seems opening
Pandora's Box.

We have to think long term - how
do we know EAF treated now will
be forever stabilized.

Thank you for all that you do
to control pollution in Illinois.

I hope to hear from you regarding
this concerning issue.

Sincerely,
