Illinois Pollution Control Board News

No. 475

October 6, 1993

GOVERNOR SIGNS MAJOR AMENDMENTS TO ILLINOIS UST AND LANDFILL PROGRAMS

On September 13, 1993, Governor Edgar signed into law Public Act 88-496 (effective upon becoming law; formerly known as House Bill 300), which made some sweeping changes to the regulation of Illinois landfills and the cleanup of leaking underground storage tank sites. This legislation was intended to allow Illinois to obtain federal authorization of a state landfill regulation pursuant to Subtitle D of the federal Resource Conservation and Recovery Act of 1976 (RCRA), as amended by the Hazardous and Solid Waste Amendments of 1984 (HSWA). (42 U.S.C. §§ 6941-6949a.) P.A. 88-496 was further intended to significantly modify the Illinois system for corrective action and financial assurance for corrective action at leaking underground storage tank sites under Subtitle I of HSWA. (42 U.S.C. §§ 6991a-6991i.)

Major Amendments continued on page 3.

U.S. EPA EXTENDS THE DEADLINE FOR COMPLIANCE WITH ITS SUBTITLE D LANDFILL REGULATIONS IN ILLINOIS FOR SIX MONTHS

In a press release issued on September 29, 1993, U.S. EPA announced that it had extended the deadline for compliance with its new RCRA Subtitle D landfill regulations for six months, until April 9, 1994, in nine states affected by flooding this summer. Illinois is among the nine states, which also include Iowa, Missouri, Wisconsin, South Dakota, North Dakota, Nebraska, and Kansas. U.S. EPA Administrator Carol M. Browner signed the order on September 27. U.S. EPA stated that the additional landfill capacity is needed for disposal of flood debris. The extension is available to any landfill if the state determines that the extension is needed so the landfill can receive flood-generated wastes. The release stated that the order also issues a blanket extension of the deadline until April 9, 1994 in all other states, but only for small landfills--i.e., those designed to receive less than 100 tons per day. The small landfill extension is unrelated to the flood debris landfill extension. (See *Rulemaking Update*.)

INFORMATION SERVICES AVAILABLE FROM THE BOARD

See the inside of this page for details on informational items available from the Board. These items include a subscription service for Board opinions and orders and copies of the landfill regulations in electronic format.

The Board also maintains an electronic Bulletin Board System (BBS) at 312-814-1590. There is no charge for access to the BBS. See the inside of this page for details.

RULEMAKING UPDATE

EMERGENCY RULE TO ALLOW ON-SITE BURIAL OF DEAD ANIMALS IN FLOOD-AFFECTED COUNTIES, R93-25

On September 23, 1993, the Board adopted an emergency rule that allows the burial of animals without a permit on the property on which they are found in certain counties. The Board found the existence of "a threat to the public interest, safety or welfare" and that "no harm will result from such burning" in response to an Agency proposal filed on August 18.

The emergency rule allows the on-site burials of animals in 43 counties that lie along the Mississippi River and its tributaries which have been designated a federal and state "disaster area" due to severe flooding this summer. These counties are Adams, Alexander, Boone, Brown, Calhoun, Carroll, Cass, Cook, DuPage, Fulton, Greene, Hancock, Henderson, Henry, Jackson,

Jersey, Jo Daviess, Kane, Knox, Lake, Lee, Madison, Massac, McHenry, Mercer, Monroe, Morgan, Ogle, Peoria, Pike, Pope, Pulaski, Randolph, Pock Island, Schuyler, Scott, Stephenson, St. Clair, Union, Warren, Whiteside, and Winnebago. The rule imposes certain conditions on the burials in order to protect water resources: the burials must not cause or

ENVIRONMENTAL INFORMATION SERVICES
AVAILABLE FROM THE BOARD

The Board has the following information available:

POLLUTION CONTROL BOARD ELECTRONIC BULLETIN BOARD SYSTEM (BBS). The Pollution Control Board operates an electronic BBS at 312-814-1590. The BBS is available 24 hours a day, 7 days a week, to anyone with access to a computer and a modem - there is no charge for access to the BBS. The best communications settings are 8 data bits (or data length 8), no parity (or parity = none) and 1 stop bit, i.e., 8-N-1. The best terminal emulation is ANSI-BBS or just ANSI. The BBS contains Board Agendas, Environmental Registers, Annual Reports, and various documents about the Board. You may download these documents to your computer. For additional information contact Bill Forcade at the Board Offices 312-814-3620.

SUBSCRIPTION SERVICE OF BOARD OPINIONS AND ORDERS. The subscription service comprises all the Opinions and Orders issued by the Pollution Control Board in a fiscal year (July 1 through June 30). The Board meets approximately twice monthly in order to issue Opinions and Orders.. Usually no later than the end of each month, a volume is issued containing the Opinions and Orders of the Board from the preceding month.

HARD COPIES OF BOARD OPINIONS AND ORDERS FOR FISCAL YEAR 1992 (July 1, 1991 through June 30, 1992) **ARE AVAILABLE FOR IMMEDIATE DELIVERY.** The cost is \$350.00 per set.

Two formats will be offered starting July 1 of this year (FY93): a hard paper copy for \$350.00 per year and an electronic version for \$275.00 per year. The electronic version will consist of Opinions and Orders in the WordPerfect 5.1 format on either 3.5" or 5.25" inch diskettes. The electronic format will allow for word searches and other useful tools provided by the WordPerfect software.

When ordering, please specify the choice of either the hard copy or electronic version. If ordering the electronic version, please specify 3.5" or 5.25" diskettes.

SUBSCRIPTION SERVICE FOR BOARD OPINIONS AND ORDERS

Enclosed is a check in the amount of _____ made payable to the Illinois Pollution Control Board for the subscription service to the Board's opinions and orders.

Name _____
(FY92 available in hard copy only).

Major Amendments continued from page 1

The Board adopted the existing state landfill regulations in docket R88-7, in August, 1990. U.S. EPA adopted its Subtitle D landfill rules in October, 1991, effective October, 1993. (40 CFR 258; 56 Fed. Reg. 50978 (Oct. 9, 1991). See article, "U.S. EPA EXTENDS THE DEADLINE" on page 1.) The 1991 federal rules now constitute minimum standards for landfills. To obtain and maintain U.S. EPA authorization of the Illinois landfill program, it was necessary to update the Environmental Protection Act and the R88-7 rules.

The P.A. 88-496 provisions relating to the Illinois Subtitle D program have three major aspects. First, they will require the Board to adopt regulations that are identical in substance to rules adopted by U.S. EPA under Subtitle D of RCRA. Second, federal authorization required that Illinois have a system for permitting all landfills covered by federal Part 258. Formerly, certain on-site industrial landfills were exempted from the permitting requirements. P.A. 88-496 grants these formerly exempted facilities a permit by rule, and it authorizes the Illinois EPA (IEPA) to review and permit all such facilities within a certain period of time. Finally, to aid in obtaining timely federal authorization of the Illinois Subtitle D program, P.A. 88-496 has a number of implementation provisions. Primary among these is that IEPA is authorized to directly implement certain of the 40 CFR 258 provisions that are more stringent than the existing Illinois rules, while continuing to implement any more stringent existing Illinois regulations. The amendments provide that the Board's Subtitle D amendments (see *Rulemaking Update*) to the existing landfill regulations will become effective only after U.S. EPA has approved them.

The other major amendments of P.A. 88-496 fundamentally rewrote the Illinois underground storage tank regulatory and reimbursement programs. New Title XVI of the Act sets forth the requirements for governance of underground storage tanks; for abandonment, repair, removal or corrective action for leaking underground storage tanks; and for reimbursement of corrective action costs associated with underground storage tanks used to contain petroleum, which is specifically and narrowly defined. Initially, the terms "facility", "owner", "operator", "underground storage tank", "petroleum", and "regulated substance", all key terms, are given the same meanings as they have under Subtitle I of the federal HSWA.

Second, the Office of the State Fire Marshall (OSFM) regulates the removal, abandonment, or repair of underground tanks, and the OSFM must have a representative on site during any tank removal, abandonment, or repair. If there is a release, the OSFM

representative must give the owner or operator reimbursement forms, direct the tank owner or operator to undertake remediation, and offer on-site assistance with regard to eligibility and reimbursement for corrective action. If there is no release, the OSFM may issue a certification that has the same effect as an IEPA "No Further Remediation" letter, creating a rebuttable presumption that no further remedial action is necessary.

Third, there are fundamental changes in how reimbursement is obtained. If there is a release, the owner or operator may backfill the preliminary tank excavation and seek reimbursement from the Agency before beginning corrective action, then complete the corrective action later when funds become available, unless IEPA notifies it of a "threats due to the presence or migration . . . of petroleum in concentrations sufficient to harm human health or human safety or to cause explosions . . . or to otherwise damage property." Alternatively, the owner or operator may proceed with remediation and later seek reimbursement. If the owner or operator seeks reimbursement prior to undertaking corrective action, it must submit a plan for IEPA review, and reimbursement is available only for the amounts approved by IEPA. IEPA must audit corrective action plans and budgets using "generally accepted auditing and accounting principles".

Fourth, the structure of remedial actions is changed. If there is a release, the owner and operator may remove the tank and a limited amount of contaminated soil (only that which is visibly contaminated, up to four feet from the tank) and groundwater (only that with a visible sheen) from the hole at the time of initial excavations. The owner or operator must then undertake a study of the site to determine whether it is a high priority, low priority, or no further action site. This is based on the type of soil at the site, according to U.S. Geological Survey records and a professional engineer's verification; the absence or presence of groundwater contamination from the product at a critical distance from the tank (the nearer of the property boundary or 200 feet from the tank); whether there is any Class III groundwater within 200 feet of the tank; whether the tank is located within the setback zone of a potable water supply well or a regulated recharge area; or whether there are any "threats."

The site cleanup standards are primarily based on groundwater contamination. For a high priority or site, the owner or operator must submit a corrective action plan for IEPA approval. For a low priority site, the owner or operator must submit a monitoring plan. The objective in either case is to assure that there is no "threat" to human health or property (as quoted above) or contamination of the groundwater at the critical distance from the tank. Groundwater monitoring is to occur over a minimum of three years at a diminishing frequency (quarterly the first, semiannually the second, and annually the third), unless there is detection of contamination. If contamination is present, the site may be classified as a high priority site, and the owner or operator must then submit a corrective action plan. After the remediation is complete, the IEPA must issue a "No Further Action" letter.

Further, P.A. 88-496 sets forth new deductible and maximum limitations on reimbursability. It also sets forth the Board's role in the UST regulatory and reimbursement scheme: review of IEPA reimbursement determinations and plan reviews, reviewing state requests for recovery of payments, and adopting regulations. The amendments establish an advisory committee composed of representatives of the regulated community to study and propose regulations that set forth indicator contaminants, the types of corrective action activities eligible for reimbursement, costs that do not constitute corrective action, and the procedures for requesting payment, for submitting corrective action plans, for collection of excess payments, and for IEPA audits of corrective action and groundwater monitoring plans.

ANIMAL BURIAL continued from page 1

threaten water pollution, they may not occur within 200 feet of a potable water supply well, and they may not be within one foot of the water table. The emergency rule allows the burials without a permit. The rule became effective on September 30, 1993, for a maximum of 150 days. Direct questions to Kathleen M. Crowley, at 312-814-6929. (Please refer to docket R93-25.)

FEDERALLY-DERIVED RCRA SUBTITLE D LANDFILL AMENDMENTS ADOPTED, R93-10

At a special Board Meeting held on September 15, 1993 the Board voted to adopt amendments to the Illinois non-hazardous landfill regulations that incorporate changes necessary to make them as stringent as the federal RCRA Subtitle D regulations. The amendments are based on October 9, 1991 U.S. EPA rules that apply to municipal solid waste landfill facilities (MSWLFs). Federal law presently requires that the states must adopt regulations that are no less stringent than the new federal regulations on or before October 9, 1993 in order to maintain

state primacy in this area. (See lead story: "U.S. EPA Extends Deadline".) New P.A. 88-496, effective September 13, 1993, mandates that the Board adopt these amendments using identical-in-substance rulemaking procedures. (See lead story: "Governor Signs Major Amendments"; see also issue 471 (June 16, 1993).) The Board will delay filing of the adopted amendments until at least October 1, 1993 to allow U.S. EPA further opportunity to comment on the rules. (As of this writing, the Board had received requests from both U.S. EPA and the Illinois EPA to extend this period.)

The amendments affect Parts 810, 811, and 814 of the Illinois landfill rules. The amendments to Part 810 add various definitions relating to MSWLF units and incorporate U.S. EPA test methods for evaluating solid waste and an extensive federal listing of numerous of organic and inorganic contaminants for which these facilities must test groundwater. The amendments to Part 811 include several changes to the existing new landfill standards. Briefly, they amend to the landfill location, operating, closure and post-closure care, recordskeeping, groundwater monitoring and corrective action, and financial assurance requirements, as they apply to MSWLFs, to make them as

stringent as the federal new rules. The amendments to Part 814 include several similar changes to the standards applicable to existing landfills in order to make them also as stringent as the U.S. EPA Subtitle D regulations. Additionally, they clarify the applicability of Part 814 to existing MSWLFs and to lateral expansions, set forth permitting requirements for existing MSWLF units and for lateral expansions, and establish foundation and mass stability standards, and impose groundwater monitoring, quality, and assessment requirements for these facilities. Direct questions to Anand Rao, at 312-814-3956; Michael J. McCambridge, at 312-814-6924; or John Cross, at 217-524-8504. (Please refer to docket R93-10.)

CLEAN AIR ACT OMNIBUS CLEANUP RULEMAKING ADOPTED, R93-9

On September 9, 1993 the Board adopted, under docket number R93-9, amendments based on the proposal filed this spring by the Illinois Environmental Protection Agency (Agency) for an omnibus cleanup of Illinois' Air Pollution Control regulations pertaining to emissions of volatile organic materials. (See issues 468, (April 7, 1993) and 473 (August 4, 1993).) The proceeding, entitled *In the Matter of: Omnibus Cleanup of Volatile Organic Materials RACT Rules Applicable to Ozone Nonattainment Areas*, amended Parts 203 (permitting), 211 (general VOM provisions), 218 (Chicago metropolitan area VOM provisions), and 219 (Metro E. St. Louis metropolitan area VOM provisions). This rulemaking represents one segment of Illinois' submittal of a complete State Implementation Plan (SIP) to the U.S. Environmental Protection Agency (U.S. EPA).

Section 182(a) of the Clean Air Act Amendments of 1990 (CAAA) required Illinois to have adopted and submitted its proposed SIP by November 15, 1992. The purpose of the R93-9 proposal is to make certain corrections to parts 218 and 219 as suggested by U.S. EPA for approval, to correct typographical errors, and to clarify the rules.

The Board conducted two public hearings on the proposal on May 7 and June 4, 1993. Public comments were received until June 22. Certain revisions from the First Notice version of the proposal occurred as a result of the testimony and comments received. The majority of those revisions related to corrections of grammar and punctuation, changes in certain choices of wording, and changes in regulatory format. Certain other revisions have a more substantive impact. These included changes to certain definitions and the deletion of a requirement that facilities submit notices and reports to U.S. EPA under certain limited circumstances.

Direct questions to Diane O'Neill, at 312-814-6062. (Please refer to docket R93-9.)

RCRA UPDATE ADOPTED, R93-4

On September 26, 1993, the Board adopted certain amendments to the Illinois RCRA regulations to include federal actions from July 1 through December 31, 1992. This docket, R93-4, involves amendments to 35 Ill. Adm. Code 703, 720, 721,

722, 724, 725, 726 and 728, and it added a new Part 739, The Management of Used Oil. The Board will follow its usual procedure in RCRA update dockets and delay filing the rules and amendments until after October 26, 1993 to allow U.S. EPA additional opportunity for comment.

This rulemaking included numerous significant amendments to the Illinois RCRA regulations. Among the more significant amendments it included were a new set of regulations for managing used and waste oil; a lifting of the administrative stay on certain wood preserving rules requiring the use of drip pads; the addition of land disposal restrictions (LDRs) for hazardous debris and newly-listed wastes; corrections to the Third-Third LDRs; treatment, storage, and disposal facility standards for containment buildings (presently known as indoor waste piles); 10 new hazardous waste listings for coking wastes; standards for the use of sorbents for disposal of liquid wastes in landfills; alternative emissions standards for hazardous waste burners; and treatment standards for hazardous debris and soils. Direct questions to Anne Manly, at 312-814-3473. (Please refer to docket R93-4.)

CLEAN AIR ACT AIR PERMIT APPEAL PROCEDURE PROPOSAL ACCEPTED, PUBLISHED FOR FIRST NOTICE, R93-24

On September 26, 1993 the Board accepted for First Notice publication in the *Illinois Register*, under docket number R93-24, a proposal filed by the Illinois Environmental Protection Agency (Agency) for amendments to the procedural rules pertaining to air permit appeals. The proceeding, entitled *In the Matter of: Amendments to the Rules for Clean Air Act Permit Appeals and Hearings Pursuant to Specific Rules 35 Ill. Adm. Code Parts 105 and 106*, would amend the Board's procedural rules as they apply to permits sought under the federal Clean Air Act Amendments of 1990 (CAAA). The Agency filed the proposal with the Board on September 14, 1993, pursuant to Section 28.5 of the Environmental Protection Act. (415 ILCS 5/28.5.) The proposal represents one segment of Illinois' submittal of a complete State Implementation Plan (SIP) to the U.S. Environmental Protection Agency (U.S. EPA).

Section 182(a) of the Clean Air Act Amendments of 1990 (CAAA) required Illinois to have adopted and submitted its proposed SIP by November 15, 1992. The purpose of the R93-24 proposal is to make certain modifications to Parts 105 and 106 of the Board's procedural rules for U.S. EPA approval. Among other amendments, the proposed amendments would require the Agency to provide notice of a permit denial to the U.S. EPA, the permit applicant, "any person who participated in the public comment process", and "any other person who could obtain judicial review under Sections 40.2 and 41 of the Act . . .".

These persons would also have a right to obtain Board review of an Agency permit decision or its failure to take action on the permit application within certain prescribed times. The proposed amendments would add certain requirements for petitions for CAAA permit review and set forth other procedural requirements.

Section 28.5 requires the Board to proceed within set time-

frames toward the adoption of the proposed amendments. The Board lacks any discretion under the statute to adjust these time-frames under any circumstances. The statute requires the Board to schedule three hearing dates in this matter, each for a prescribed purpose. The first day of hearing is reserved for presentation by the Agency and questions of Agency witnesses. The second scheduled day of hearing, if it occurs, is reserved for presentation by affected entities and all other interested persons.

The third scheduled day of hearing, if it occurs, is reserved for any Agency response and responses of other parties. In these "fast-track" proceedings, the hearings are continued from day to day, as necessary, until all business is completed. However, the second and third hearing dates are subject to cancellation without further notice if the level of public interest and participation so warrant.

All hearings will be held at the Capitol Building, Room 400, Springfield, Illinois, and will begin at 10:00 a.m. The Board has scheduled the following hearing dates and rooms:

Monday, November 8, 1993

Wednesday, December 8, 1993

Wednesday, December 22, 1993

Each day of hearing will be continued from day to day, as necessary, until business is complete. The second and third days of hearing are subject to cancellation without notice if the affected entities are in agreement on the rule and the U.S. EPA has not informed the Board of any unresolved objection to the rule.

Persons interested in participating in the hearings should contact the hearing officer, Marie E. Tipsord, at 312-814-4925 or 618-498-9802, for additional information. (Please refer to docket R93-24.)

(See the Notice of Hearing for related Agency CAAPP procedural rules that appears on page 21.)

ARMY CORPS. DREDGING WATER QUALITY RULE PROPOSED FOR FIRST NOTICE, R92-17

On September 26, 1993, the Board proposed a rule for First Notice publication in the Illinois Register that would govern the placement of dredged material along the Illinois River between miles 80.2 and 291 by the Army Corps. of Engineers during dredging operations. The Army Corps. filed a proposal on September 17, 1992. The Board held public hearings on June 22, 1993, in Peoria, and June 23, 1993, in Morris. Following the hearings, the Board received public comments in favor of the proposal.

This rule would impose alternative limitations on the placement of dredged material, in place of the current prohibition against causing offensive conditions or a violation of the water quality limitations for dissolved oxygen, total, lead, total zinc, and ammonia nitrogen and un-ionized ammonia. The alternative limitations would allow bankline deposition during dredging operations, and would govern the percent of fine-grained material

in the dredge cut and the area of the water that does not comply with the water quality standards. The limitations would require the Army Corps. to hold a Water Quality Certification for the dredging operations issued by the Agency pursuant to Section 401 of the Clean Water Act (33 U.S.C. § 1341). Direct questions to Michelle C. Dresdow, at 815-753-0947. (Please refer to docket R92-17.)

ALTERNATIVE RULES FOR LANDFILLS ACCEPTING FOUNDRY AND STEEL INDUSTRY WASTES PROPOSED FOR SECOND FIRST NOTICE, R90-26

On September 23, 1993, the Board proposed certain amendments to the Illinois landfill regulations for First Notice publication in the *Illinois Register* that would govern the landfill disposal of certain wastes generated by the iron and steel industries. The Board took this action without comment on the merits of the proposed rules after receiving a second amended proposal from the proponent foundry and steel industries.

The Illinois landfill regulations, adopted in August, 1990, included a provision that allowed an exemption for certain wastes generated by the foundry and steel industries, provided the subject industries filed a proposal by December 1, 1990 setting forth alternative regulations. The industries filed such a proposal on December 12, 1990. The Board adopted an order sending proposed rules for First Notice publication on February 7, 1991 and held public hearings on May 19, June 7, and June 21, 1991.

The proponent industries filed an amended proposal on May 13, 1991 and a second amended proposal on March 4 and May 13, 1993.

The proposed amendments would impose certain alternative requirements for the landfilling of foundry sand and steel slag in landfills accepting only waste from the iron and steel industries. They would establish standards for waste testing, waste classification, waste mining, waste use, and long-term storage of wastes. The applicable limitations imposed would include landfill design, operation, maintenance, closure, and post-closure care requirements. The Board held a public hearing on the second amended proposal on October 1, 1993, and another hearing is presently scheduled for November 19, 1993, in Chicago. Direct questions to Kathleen M. Crowley, at 312-814-6929. (Please refer to docket R90-26.)

CROSS-CONNECTIONS PROCEEDING DISMISSED, R87-37

On September 9, 1993, the Board determined that the record lacked sufficient information to allow the Board to proceed in docket R87-37, cross-connection control. The Agency-proposed rules would have regulated cross-connections, connections between potable and non-potable water supplies, to assure protection of the potable supplies.

In dismissing the docket, the Board noted that the Agency, the participants, and the Board had each dedicated a significant amount of time and effort to this rulemaking. However, there were several areas within the record that were lacking. The Board specifically stated that the record did not indicate that the

rule as proposed was economically reasonable and that the costs associated with by cross-connection control as proposed were far outweighed by the benefits to be gained.

Although the Board noted that cross-connection control is an area in which regulation could prove beneficial, it chose not to proceed with the rulemaking. Noting that cross-connections are currently regulated by 35 Ill. Adm. Code 607.104 of the Board's water pollution regulations and by the Illinois Plumbing Code, administered by the Illinois Department of Public Health, the Board closed the R87-37 docket. J. Anderson concurred. Direct questions to Marie E. Tipsord, at 312-814-4925 or 618-498-9803. (Please refer to docket R87-37.)

EIGHT FEDERAL PROGRAM UPDATE DOCKETS RESERVED, FOUR DISMISSED, R93-17 THROUGH R93-23

On September 26, 1993, the Board reserved eight new identical-in-substance rulemaking dockets to accommodate federal amendments in the various covered programs that occurred during the period from January 1 through June 30, 1993. The Board promptly dismissed four of these routine dockets because no federal amendments occurred in the respective programs.

The identical-in-substance dockets dismissed pertained to the Illinois underground injection control (UIC), underground storage tank (UST), Safe Drinking Water Act (SDWA), and Clean Air Act programs (exemptions from the definition of VOM (R93-17, R93-18, R93-19 and R93-21, respectively). U.S. EPA did not amend its UIC and SDWA rules (40 CFR 141, 142, 146 & 148) during this update period. U.S. EPA further did not amend its exemptions from the definition of VOM (40 CFR 51.100(s)) during this time. The amendments that U.S. EPA made to its UST rules (40 CFR 280 & 281) did not affect those aspects within the Board's identical-in-substance mandate.

The four dockets retained included those for the RCRA (Subtitle C, hazardous waste) program (R93-16), the wastewater pretreatment program (R93-20), the RCRA Subtitle D (non-hazardous waste landfill) program (R93-22), and the Illinois contingency plan (CERCLA) program. U.S. EPA amended its RCRA Subtitle C regulations during the January 1 through June 30, 1993 time-frame. The Board will consider corresponding amendments at a future time. During this time, U.S. EPA promulgated its federal sludge management regulations, and the Board is studying the impact of the federal program on the state wastewater pretreatment and Subtitle D programs to determine appropriate further action in these two corresponding dockets. Although U.S. EPA did not amend its CERCLA regulations during the period, the Board has temporarily delayed further action in the state contingency plan update docket. Direct questions to Michael J. McCambridge, at 312-814-6924. (Please refer to dockets R93-17, R93-18, R93-19, and R93-21.)

FOR YOUR INFORMATION

ADJUSTED STANDARDS DETERMINATIONS LIST

Pursuant to Section 28.1(d)(3) of the Environmental Protection Act, the Board is publishing in this issue of the Environmental Register a list of all final determinations on adjusted standards made within fiscal year 1993 (July 1, 1992 through June 30, 1993). Accompanying that listing is a list of all final determinations on combined sewer overflow exceptions during the fiscal year. To receive a copy of any of these determinations, please write to the Clerk of the Board and specify the docket number of the case.

RESTRICTED STATUS AND CRITICAL REVIEW LISTS FOR PUBLIC WATER SUPPLIES IN THIS ISSUE

The Illinois Environmental Protection Agency, Division of Public Water Supplies, is publishing copies of the Division's Restricted Status and Critical Review lists at the end of this issue of the Environmental Register. These lists reflect the status as of September 30, 1993.

BOARD MEMBERS SPEAK AT ENVIRONMENTAL REGULATIONS IN ILLINOIS CONFERENCE

Chairman Claire Manning and Board Member Bill Forcade addressed the participants at a conference on environmental regulations in Illinois, presented by the Institute of Business Law at the Swissotel in Chicago, on September 28 and 29, 1993. The conference included speakers from federal, state, county and municipal agencies, along with consultants and environmental attorneys.

Chairman Manning explained the structure of environmental law and regulations in the state. The Chairman provided a historical overview of the environmental system in Illinois. She also addressed the role of the Board in rulemaking and adjudicatory proceedings. She also spoke on the environmental issues that the Board will face in the future.

Mr. Forcade spoke on recent trends in rulemaking and enforcement actions. He addressed the use of penalties by the Board and compared the penalties used by the Board with penalties from circuit court actions and federal enforcement procedures. Board member Forcade also addressed the relationship between rulemaking and enforcement actions. He stressed the importance of public participation in the rulemaking process. He also reviewed the areas where new rulemakings are anticipated in the future.

APPELLATE UPDATE

SUPREME COURT DENIES HEARING APPEAL FROM FOURTH DISTRICT GRIGOLEIT DECISION

On October 6, 1993, the Illinois Supreme Court denied the Illinois EPA's petition for leave to appeal a Fourth District appellate decision in *Grigoleit Co. v. PCB* (May 6,

1993), 245 Ill. App. 3d 337, 613 N.E.2d 371 (4th Dist.; before the Board as docket PCB 89-184). The appellate court had affirmed all aspects of the Board's order that the Agency must issue a permit, except to the extent the Board denied an award of attorneys' fees against the Agency. (See Register issue 470 (May 19, 1993).)

On appeal, the Agency had asserted that the court lacked jurisdiction because Grigoleit did not file for reconsideration by the Board before filing an appeal. The court ruled that a motion for reconsideration was not a necessary prerequisite to appellate jurisdiction over a Board decision.

The Fourth District further held that once the Board issues a mandate in a permit appeal, the Agency lacks the discretion to do anything but follow that mandate if it chooses not to appeal the Board's order. The Agency had argued that it retains the same discretion to review a permit request after reversal on appeal and a remand by the Board as it had before the Board order.

Finally, the court reversed a Board denial of the sanction of an award of attorneys fees expended by the permit applicant on the second appeal. Rather than award attorneys' fees, the Board ordered the Agency to issue the permit. The court felt that ordering the Agency to grant the permit applicant something to which it was already entitled was an insufficient sanction. Nevertheless, the court held that the Board had properly denied the request for dismissal of a separate enforcement action filed by the Agency against Grigoleit.

The Illinois Supreme Court will issue its mandate in this matter on October 28, 1993.

FINAL ACTIONS - September 9, 1993 BOARD MEETING

- | | | | |
|--------|---|--------|---|
| 90-137 | <u>Richard Worthen, Clarence Bohm, Harry Parker, George Arnold, City of Edwardsville, City of Troy, Village of Maryville, and Village of Glen Carbon v. Village of Roxana and Laidlaw Waste Systems (Madison), Inc.</u> - The Board affirmed the local siting approval for the expansion of a Madison County landfill. | | the parties in this UST enforcement action against an Effingham County facility, ordered the respondent to pay a civil penalty of \$10,000, and ordered the respondent to cease and desist from further violation. |
| 92-69 | <u>People of the State of Illinois v. Patterson Gear & Machine, Inc.</u> - The Board accepted a stipulation and settlement agreement filed by the parties in this RCRA enforcement action against a Winnebago County facility, ordered the respondent to pay a civil penalty of \$1,500, and ordered the respondent to cease and desist from further violation. | 93-94 | <u>People of the State of Illinois v. Cooper Tools, a division of Cooper Industries, Inc., an Ohio corporation</u> - The Board accepted a stipulation and settlement agreement filed by the parties in this air enforcement action against a DeKalb County facility, ordered the respondent to pay a civil penalty of \$7,000, and ordered the respondent to cease and desist from further violation. |
| 93-56 | <u>People of the State of Illinois v. World Color Press, Inc.</u> - The Board accepted a stipulation and settlement agreement filed by | 93-144 | <u>People of the State of Illinois v. Anchor Glass Container Corporation, a Delaware corporation</u> - The Board accepted a stipulation and settlement agreement filed by the parties in this air enforcement action |

- against a LaSalle County facility, ordered the respondent to pay a civil penalty of \$1,000, and ordered the respondent to cease and desist from further violation. J. Theodore Meyer dissented.
- 93-153 The Grigoleit Company v. EPA - The Board dismissed this petition to review an Agency trade secrets determination for lack of jurisdiction.
- 93-167 Illinois Department of Transportation v. EPA - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 30 days at its Bureau County facility.
- 93-168 The Knapheide Manufacturing Company v. EPA - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends a prior provisional variance granted its Adams County facility on July 29, 1993, under docket 93-141, which allows it to temporarily move its manufacturing operations from a flooded site in West Quincy, Missouri to Quincy, Illinois without complying with the Illinois air permit and volatile organic material emissions regulations.
- 93-170 Nestle Food Company v. EPA - Upon receipt of an Agency recommendation, the Board granted the petitioner a 45-day provisional
- variance from certain of the effluent and water quality limitations that will allow it to discharge effluent from its Tazewell County wastewater treatment lagoons to reduce the excess water held as a result of heavy rains and to allow sufficient treatment capacity for the wastewater anticipated from a normal production season.
- AC 93-37 EPA v. John R. Eller - The Board granted an Agency motion to withdraw this administrative citation filed against this Macoupin County respondent.
- R87-37 In the Matter of: Proposed Amendments to Title 35, Subtitle F: Public Water Supplies Chapter 1:, Pollution Control Board 35 Ill. Adm. Code 608 Cross-Connection Standards, Proposed Rule, Second Notice, Opinion and Order - **See Rulemaking Update.**
- R93-2 In the Matter of: Pretreatment Update, USEPA Regulations (July 1, 1992 through December 31, 1992), - **See Rulemaking Update.**
- R93-9 In the Matter of: Omnibus Cleanup of the Volatile Organic Material RACT Rules Applicable to Ozone Nonattainment Areas: Amendments to 35 Ill. Adm. Code Parts 203, 211, 218 and 219, Adopted Rule, Final Order, Opinion and Order - **See Rulemaking Update.**

NEW CASES - September 9, 1993 BOARD MEETING

- 93-150 Robert Miehle v. Chicago Bridge & Iron Company - The Board accepted this citizen's UST enforcement action against a Cook County facility for hearing.
- 93-153 The Grigoleit Company v. EPA - **See Final Actions.**
- 93-156 LaSalle National Bank T/UT 46099 v. EPA - The Board accepted this underground storage tank reimbursement determination appeal involving a Cook County facility for hearing.
- 93-157 People of the State of Illinois v. Lisle Park District and R.L. Smith Construction, Inc. -
- 93-158 Wheaton Park District v. EPA - The Board accepted this underground storage tank reimbursement determination appeal involving a DuPage County facility for hearing.
- 93-159 Perma-Treat of Illinois, Inc. v. EPA - The Board accepted this RCRA permit appeal
- Upon receipt of proposed stipulation and settlement agreement and an agreed motion to request relief from hearing the requirement in this air enforcement action against a DuPage County facility, the Board ordered publication of the required newspaper notice.

- involving a Williamson County facility for hearing.
- 93-160 People of the State of Illinois v. Naperville Asphalt, Inc. - The Board accepted this air enforcement action against a Kendall County facility for hearing.
- 93-161 Joseph A. Schrantz, Charles Hullihan, Frank Owoc, and Elizabeth Stearns v. Village of Villa Park, DuPage County Division of Transportation, Villa Park Rotary Club, Kiwanis Club, and Masonic Lodge - The Board held this citizens' noise enforcement action against a DuPage County facility for a frivolous and duplicitous determination.
- 93-162 Wilmer Brockman, Jr. and First Midwest Bank of Joliet, as Trustee Under Trust No. 757 v. EPA - The Board accepted this land permit appeal involving a LaSalle County facility for hearing.
- 93-163 Villages of Granville & Mark v. EPA - The Board held this public water supply variance petition involving Putnam County facilities for the Agency's recommendation.
- 93-164 Village of North Aurora v. EPA - The Board held this public water supply variance petition involving a Kane County facility for the Agency's recommendation.
- 93-165 Connecticut Mutual Life Insurance Company v. EPA - The Board accepted this underground storage tank reimbursement determination appeal involving a Winnebago County facility for hearing.
- 93-166 Mobil Oil Corporation v. EPA - The Board requested an amended petition in this air variance proceeding involving Cook and DuPage County facilities. B. Forcade concurred.
- 93-167 Illinois Department of Transportation v. EPA - **See Final Actions.**
- 93-168 The Knapheide Manufacturing Company v. EPA - **See Final Actions.**
- 93-169 The Knapheide Manufacturing Company v. EPA - The Board requested an amended petition in this air variance proceeding involv-
- ing an Adams County facility.
- 93-170 Nestle Food Company v. EPA - **See Final Actions.**
- AS 93-8 In the Matter of: Petition of Akzo Chemicals Inc. for Adjusted Standard from 35 Ill. Adm. Code 304.105 and 302.208 - The Board accepted this petition for an adjusted standard from certain of the water pollution control regulations for a Will County facility for hearing.
- R93-16 RCRA Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-17 UIC Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-18 UST Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-19 Safe Drinking Water Act Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-20 Pretreatment (NPDES) Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-21 VOM Exemptions Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-22 RCRA Subtitle D Update, USEPA Regulations (January 1, 1993 through June 30, 1993) - **See Rulemaking Update.**
- R93-23 State Contingency Plan Update, USEPA Regulations (January 1 1993 through June 30, 1993) - **See Rulemaking Update.**

FINAL ACTIONS - September 15, 1993 SPECIAL BOARD MEETING

R93-10 In the Matter of: RCRA Subtitle D Amendments (Amendments to 35 Ill. Adm. Code Part 810, Part 811, and Part 815) Adopted Rule, Final Order - **See Rulemaking Update.**

FINAL ACTIONS - September 23, 1993 BOARD MEETING

93-70	<u>Joliet Park District (Joliet Airport Facility) v. EPA</u> - The Board granted voluntary dismissal of this underground storage tank reimbursement determination appeal involving a Will County facility.		penalty of \$1,000.00 to the Ogle County Treasurer, and ordered the county to file an affidavit of costs within 30 days. J. Theodore Meyer dissented.
93-106	<u>Larry Slates, Loni Seymour, James Klaber, Faye Mott, and Hoopeston Community Memorial Hospital v. Illinois Landfills, Inc., and Hoopeston City Council, on behalf of the City of Hoopeston</u> - The Board reversed the local siting approval for a proposed Vermilion County regional pollution control facility. B. Forcade concurred and R.C. Flemal dissented.	AC 93-19	<u>EPA v. Laidlaw Waste Systems, Inc. and Environmental Reclamation Company</u> - The Board granted the Coles County respondents' motion to voluntarily withdraw their petition for review pursuant to a settlement agreement and ordered payment of the \$1,000.00 civil penalty.
93-148	<u>R. Lavin & Sons v. EPA</u> - The Board granted voluntary withdrawal of this RCRA permit appeal involving a Lake County facility.	R93-4	<u>In the Matter of: RCRA Update, USEPA Regulations (July 1, 1992 through December 31, 1992)</u> - See <u>Rulemaking Update.</u>
93-175	<u>TransTechnology Electronics v. EPA</u> - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 3 days at its Stark County facility.	R93-17	<u>In the Matter of: UIC Update, USEPA Regulations (January 1, 1993 through June 30, 1993)</u> - See <u>Rulemaking Update.</u>
93-176	<u>Triad Circuits, Inc. v. EPA</u> - Upon receipt of an Agency recommendation, the Board granted the petitioner a provisional variance that extends the hazardous waste accumulation time for 23 days at its Lake County facility.	R93-18	<u>In the Matter of: UST Update, USEPA Regulations (January 1, 1993 through June 30, 1993)</u> - See <u>Rulemaking Update.</u>
AC 91-32	<u>County of Ogle v. Rochelle Disposal Service, Inc. and City of Rochelle, Illinois</u> - The Board found that the respondent had violated Section 21(o)(5) of the Act at its Ogle County facility, ordered the respondent to pay a civil	R93-19	<u>In the Matter of: Safe Drinking Water Act Update, USEPA Regulations (January 1, 1993 through June 30, 1993)</u> - See <u>Rulemaking Update.</u>
		R93-21	<u>In the Matter of: VOM Update, USEPA Regulations (January 1, 1993 through June 30, 1993)</u> - See <u>Rulemaking Update.</u>
		R93-25	<u>In the Matter of: Emergency Amendments to the Landfill Rules, 35 Ill. Adm. Code 807.106</u> - See <u>Rulemaking Update.</u>

NEW CASES - September 23, 1993 BOARD MEETING

- 93-161 Joseph A. Schrantz, Charles Hulihan, Frank Owoc, and Elizabeth Stearns v. Village of Villa Park, DuPage County Division of Transportation, Villa Park Rotary Club, Kiwanis Club, and Masonic Lodge - The Board held this citizens' noise enforcement action against a DuPage County facility for a frivolous and duplicitous determination.
- R93-24 Amendments to the Rules for Permit Appeals and Hearings Pursuant to Specific Rules, 35 Ill. Adm. Code Parts 105 and 106 - **See Rulemaking Update.**
- R93-25 Emergency Amendments to the Landfill Rules, 35 Ill. Adm. Code 807.106 - **See Rulemaking Update.**
- 93-171 Leo G. Fore et al. v. Midstate Kart Club - The Board held this citizens' noise enforcement action against a Sangamon County facility for a frivolous and duplicitous determination.
- 93-172 Inspiration Development Company v. EPA - The Board accepted this land permit appeal involving a Jo Daviess County facility for hearing.
- 93-173 Quantum Chemical Corporation, USI Division v. EPA - The Board accepted this NPDES permit appeal involving a Grundy County facility for hearing.
- 93-174 Applied Composites Corporation v. EPA - The Board accepted this air permit appeal involving a Kane County facility for hearing.
- 93-175 TransTechnology Electronics v. EPA - **See Final Actions.**
- 93-176 Triad Circuits, Inc. v. EPA - **See Final Actions.**

CALENDAR OF HEARINGS

All hearings held by the Board are open to the public. All Pollution Control Board Meetings (highlighted) are open to the public but public participation is generally not allowed. Times and locations are subject to cancellation and rescheduling without notice. Confirmation of hearing dates and times is available from the Clerk of the Board at 312-814-6931.

**October 7
10:30 a.m.**

Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.

October 19
9:30 a.m.

PCB 93-158
UST-FRD

Wheaton Park District v. EPA - DuPage County Courthouse, Courtroom 2001, 505 North County Farm Road, Wheaton.

October 20 10:00 a.m.	PCB 93-18 UST-FRD	<u>City of Roodhouse v. EPA</u> - Roodhouse City Hall, 119 West Palm Street, Roodhouse.
October 21 10:30 a.m.		Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.
October 22 9:30 a.m.	PCB 92-210 UST-FRD	<u>Estate of Larry Junkin, by Patricia Junkin, Executrix v. EPA</u> - City of Champaign Municipal Building, City Council Chambers, 102 North Neil Street, Champaign.
October 22 10:00 a.m.	PCB 93-162 P-A, Land	<u>Wilmer Brockman, Jr. and First Midwest Bank of Joliet v. EPA</u> - Government Center, County Board Room, 707 Etna Road, Ottawa.
October 26 10:00 a.m.	AS 91-12 Water	<u>Illinois American Water Company, Petition for an Adjusted Standard from 35 Ill. Adm. Code 304.124 (Iron and TSS only) for the Water Company's Cairo Public Water Supply Facility</u> - Alexander County Courthouse, Small Courtroom, 2000 Washington Street, Cairo.
October 27 10:00 a.m.	PCB 92-166 P-A, NPDES	<u>Marathon Oil Company (Robinson Refinery) v. EPA</u> - Robinson Public Library, Meeting Room, 606 North Jefferson, Robinson.
October 27 10:00 a.m.	PCB 93-105 UST-FRD	<u>Divane Bros. Electric Co. v. EPA</u> - Law Offices of Delman & Hurwitz, Suite 1010, 4709 West Golf Road, Skokie.
October 28 9:00 a.m.	PCB 93-76 P-A, RCRA	<u>Nicor National Illinois Inc. v. EPA</u> - Alton City Hall, 101 East 3rd Street, Alton.
November 4 10:30 a.m.		Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.
November 8 10:00 a.m.	PCB 92-33 UST-E	<u>Erich J. Mandel v. Thaddeus G. Kulpaka</u> - James R. Thompson Center, Suite 11-500, 100 West Randolph Street, Chicago.
November 8 10:00 a.m.	PCB 93-159 P-A, RCRA	<u>Perma-Treat of Illinois, Inc. v. EPA</u> - State of Illinois Regional Office Building, West Conference Room, 2039 West Main Street, Marion.
November 8 10:00 a.m.	R93-24 R, Air	<u>In the Matter of: Amendments to the Rules for Permit Appeals and Hearings Pursuant to Specific Rules, 35 Ill. Adm. Code 105 and 106</u> - Capitol Building, Room 400, Springfield.
November 16 10:00 a.m.	PCB 93-15 N-E, Citizens	<u>Dorothy Furlan and Michael Furlan v. University of Illinois School of Medicine</u> - Rockford Public Library, Meeting Room A, 215 North Wyman, Rockford.
November 17 10:00 a.m.	PCB 93-55 UST-FRD	<u>Clarendon Hills/Bridal Center (Learsi & Co., Inc.) v. EPA</u> - Clarendon Hills Village Hall, Board Room, 1 North Prospect Avenue, Clarendon Hills.
November 18 10:00 a.m.	PCB 93-55 UST-FRD	<u>Clarendon Hills/Bridal Center (Learsi & Co., Inc.) v. EPA</u> - Clarendon Hills Village Hall, Board Room, 1 North Prospect Avenue, Clarendon Hills.
November 18 10:30 a.m.		Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.
November 19 10:00 a.m.	R90-26 R, Land	<u>In the Matter of: Steel and Foundry Industry Amendments to the Landfill Regulations, 35 Ill. Adm. Code 810-815 & 817</u> - James R. Thompson Center, Room 9-040, 100 West Randolph Street, Chicago.

November 29 10:00 a.m.	PCB 92-200 UST-FRD	<u>Ron's Interstate Sunoco v. EPA</u> - Champaign City Hall, Council Chambers, 102 North Neil Street, First Floor, Champaign.
December 2 10:30 a.m.		Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.
December 3 10:00 a.m.	PCB 93-104 UST-FRD	<u>Griffin Service and Sproule Construction Co. v. EPA</u> - Galena City Hall, 312½ North Main Street, Galena.
December 6 9:00 a.m.	PCB 93-138 P-A, RCRA	<u>Safety-Kleen Corp. (Urbana Service Center Facility) v. EPA</u> - Urbana City Building, First Floor, 400 South Vine Street, Urbana.
December 7 9:00 a.m.	PCB 93-87 A-E	<u>People of the State of Illinois v. South Holland Metal Finishing Co., Inc.</u> - James R. Thompson Center, Suite 11-500, 100 West Randolph Street, Chicago.
December 8 10:00 a.m.	R93-24 R, Air	<u>In the Matter of: Amendments to the Rules for Permit Appeals and Hearings Pursuant to Specific Rules, 35 Ill. Adm. Code 105 and 106</u> - Capitol Building, Room 400, Springfield.
December 8 9:30 a.m.	R93-26 R, Land	<u>In the Matter of: Steel and Foundry Industry Amendments to the Landfill Regulations, 35 Ill. Adm. Code 810-815 & 817</u> - Capitol Building, Room 400, Springfield.
December 16 10:30 a.m.		Pollution Control Board Meeting, James R. Thompson Center, 100 W. Randolph St., Conference Room 9-040, Chicago.
December 17 10:00 a.m.	PCB 92-172 A-V	<u>Olin Corporation (Winchester Division) v. EPA</u> - Alton City Council Chambers, Room 104, 101 East 3rd Street, Alton.
December 22 10:00 a.m.	R93-24 R, Air	<u>In the Matter of: Amendments to the Rules for Permit Appeals and Hearings Pursuant to Specific Rules, 35 Ill. Adm. Code 105 and 106</u> - Capitol Building, Room 400, Springfield.
January 6 10:00 a.m.	PCB 93-128 P-A, RCRA	<u>National Coatings, Inc. v. EPA</u> - County Board Room, Knox County Courthouse, 200 South Cherry Street, Galesburg.
January 10 9:00 a.m.	PCB 91-197 P-A, RCRA	<u>Cabot Corporation (Tuscola Facility) v. EPA</u> - Douglas County Courthouse, First Floor, County Board Room, 401 South Center Street, Tuscola.
January 26 10:00 a.m.	PCB 93-92 L-E	<u>People of the State of Illinois v. Elkay Manufacturing Company</u> - Oak Brook Village Hall, Administration Building, 1200 Oak Brook Road (31st Street), Oak Brook.

- AS 92-11 In the Matter of: Joint Petition of Navistar International Transportation Corporation and the Engine Manufacturers Association for Adjusted Standard from 35 Ill. Adm. Code 240.141 The Board granted voluntary dismissal on April 8, 1993

- AS 92-12 In the Matter of: Joint Petition of Cummins Engine Company and the Engine Manufacturers Association for Adjusted Standard from 35 Ill. Adm. Code 240.141 The Board granted voluntary dismissal on April 8, 1993

**Final Actions Taken by the Pollution Control Board
in Combined Sewer Overflow Exception Proceedings
during Fiscal Year 1993**
(between July 1, 1992 and June 30, 1993)

The Board made no final determinations during fiscal year 1993.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Restricted Status List -- Public Water Supplies

The Restricted Status List was developed to give additional notification to officials of public water supplies which are in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

The Restricted Status List will include all Public Water Supplies for which the Agency has information indicating a violation of any of the following requirements: Finished water quality requirements of 35 Ill. Adm. Code, Part 604, Subparts B and C; maintenance of adequate pressure on all parts of the distribution system under all conditions of demand; meeting raw water quantity requirements of 35 Ill. Adm. Code 604.502; or maintenance of treatment facilities capable of providing water "assuredly adequate in quantity" as required by Section 18 of the Illinois Environmental Protection Act.

A public water supply on the Restricted Status List will not be issued permits for water main extensions, except for certain limited situations, or unless the supply has been granted a variance from the Illinois Pollution Control Board for the violation, or from permit issuance requirements of Section 39 of the Act.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of October 1, 1993.

- * Indicates public water supplies which have been added to the list since the previous publication.
- ** Indicates actions are being taken by officials to bring the public water supply into compliance.

Illinois Environmental Protection Agency

Division of Public Water Supplies

Critical Review List -- Public Water Supplies

The Critical Review List was developed to give additional notification to officials of public water supplies which may be close to being in violation of 35 Ill. Adm. Code, Subtitle F: Public Water Supplies, Chapter I or the Illinois Environmental Protection Act.

A supply will be placed on the Critical Review List when Agency records indicate that it is approaching any of the violations which would place it on the Restricted Status List.

This list is continually being revised as new information becomes available, and therefore, specific inquiries as to the status of any public water supply should be directed to the Division of Public Water Supplies for final determination. This list reflects the status as of October 1, 1993.

* Indicates public water supplies which have been added to the list since the previous publication.

** Indicates actions are being taken by officials to bring the public water supply into compliance.

DED:sp/0046g/23-25

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

**NOTICE OF PUBLIC HEARING ON PROPOSED
CLEAN AIR ACT PERMIT PROGRAM PROCEDURES**

Date, Time and Place of Public Hearing:

Wednesday, November 10, 1993, at 10:00 a.m.
Illinois Environmental Protection Agency
Bureau of Air
1240 North Ninth Street, Conference Room "D"
Springfield, Illinois 62794-9276

Other Pertinent Information:

The hearing will be held for the purpose of gathering public comments on the Illinois Environmental Protection Agency's ("Agency") Clean Air Act Permit Program Procedures, 35 Ill. Adm. Code 270.

These rules are being proposed to provide additional detail regarding the State of Illinois Clean Air Act Permit Program ("CAAPP"), as provided by 35 Ill. Adm. Code 5/39.5 (formerly Ill. Rev. Stat. ch. 111½, par. 1039.5), to assist the affected sources. The proposed rules provide specific procedures regarding the preparation and submittal of permit applications, permit reopenings, and permit fee billing and payment.

Persons interested in presenting oral testimony will be initially limited to fifteen (15) minutes for the presentation of such testimony. No person will be recognized to speak for a second time until all persons wishing to testify have done so.

The hearing will be held under the provisions of the Agency's "Procedures for Informational and Quasi-Legislative Public Hearings", 35 Ill. Adm. Code 164. Information about the hearing process and copies of these rules may be had from the following person:

John Williams, Agency Hearing Officer
Illinois Environmental Protection Agency
2200 Churchill Road, P.O. Box 19276
Springfield, Illinois, 62794-9276
Phone: 217-782-5544.

Closure of the Hearing Record:

The hearing record will close on November 25, 1993. Written comments need not be notarized and should be postmarked before midnight, November 25, 1993. Please mail written comments or address inquiries regarding the proposed rules as follows:

Sharon M. Davis, Assistant Counsel
Illinois Environmental Protection Agency
Bureau of Air
2200 Churchill Road, P.O. Box 19276
Springfield, Illinois, 62794-9276
Phone: 217-524-3333

Printed by Authority of the State of Illinois, October 6, 1993, 2,000 copies, order #57701.

The Illinois Pollution Control Board is an independent seven member board which adopts the environmental control standards for the State of Illinois and rules on enforcement actions and other environmental disputes. The Board Members are:

Claire A. Manning, Chairman
Springfield, Illinois

Joan G. Anderson
Western Springs, Illinois

Ronald C. Flemal
DeKalb, Illinois

Bill S. Forcade
Chicago, Illinois

G. Tanner Girard
Grafton, Illinois

J. Theodore Meyer
Chicago, Illinois

Michael L. Nardulli
Chicago, Illinois

The Environmental Register is a newsletter published by the Board after every Board meeting. The Register provides updates on rulemakings and other information, lists final actions, and contains the Board's hearing calendar. The Register is provided free of charge.
