General Remarks

Site History

The site was originally found in violation during a Feb. 26, 1998 inspection. Joy Hinz of the Will County Land Use Dept., Waste Services Division, was the inspector. After over one year and four violation letters sent to the owners, the site was found “In-General Compliance” during an April 21, 1999 inspection.

Dean Olson, Will County Waste Services Division Manager, conducted an inspection on July 2, 2004, found the site in violation, and sent a Non-Compliance Advisory (NCA) to the owners. During an August 13, 2004 inspection by Dean, the site was still in violation and he issued Violation Notice (VN) L-2004-WL099. On December 7, 2004 Dean issued a Notice of Intent to Pursue Legal Action letter for no VN response and no cleanup observed at the site. On February 4, 2005 Dean observed similar ongoing violations. On March 1, 2005 an EDG meeting was held and the case was referred to the Will County SAO, Case No. 05 CH 565. Two Will County Court Orders were issued during 2005, which addressed violations at the site. After several court dates, and eventual cleanup by the property owner, the case was “Dismissed without prejudice” on April 10, 2006.

Site Inspection

On October 31, 2008 I conducted an inspection of the above-mentioned property to determine its compliance with the Illinois Environmental Protection Act and Title 35 of the Illinois Administrative Code. Weather conditions during the inspection included a temperature of 68 degrees Fahrenheit, west-southwest winds at 8 mph, and clear skies.

I arrived at the site, parked the vehicle, and began the inspection on foot. I did not observe any persons on the property at the time. In the southeast section of the property I observed off-site generated landscape waste, construction and demolition debris, scrap metal, contaminated soil, and litter open dumped (photo 1). I observed piles of off-site generated landscape waste such as brush, grass clippings, sod, and leaves open dumped (photo 2). I observed off-site generated landscape waste, construction and demolition debris, and litter open dumped (photo 3). I then observed off-site generated landscape waste, treated woody waste, litter and contaminated soil open dumped (photo 4). I then observed waste tires, litter, construction and demolition debris, and contaminated soil open dumped (photo 5). I observed contaminated soil mixed with construction and demolition debris, litter, and tires open dumped (photo 6). I then observed an abandoned vehicle and boat open dumped (photo 7). I observed the two abandoned vehicles open dumped and buried with about one foot of open dumped soil contaminated with construction and demolition debris and litter (photo 8). I also observed an abandoned tractor open dumped partially hidden by vegetation.

I proceeded and observed some pieces of scrap metal open dumped near a building (photo 9). I continued to observed piles of off-site generated landscape waste, contaminated soil, construction and demolition debris, scrap metal, and litter open dumped (photos 10 & 11). I then observed a container with open burned construction and demolition debris and litter in it (photo 12). I then observed construction and demolition debris and litter open dumped (photo 13). I then observed a pick-up truck bed filled with off-site generated landscape waste (photo 14). I then observed a Bren Concrete truck parked onsite (photo 15). I also observed a Jeff's Lawn Care & Landscaping truck parked onsite. It appears one or both of the businesses may be causing or allowing the open dumping and open burning at the site. I then concluded the inspection and exited the site. I estimated approximately 220 cubic yards of waste debris was open dumped on the site, including the two abandoned vehicles and boat.

Upon concluding the inspection, the following apparent violations were observed at site: sections 9(a), 9(c), 21(a), 21(c), 21(d)(1), 21(d)(2), 21(e), 21(p(1)), 21(p(3)), 21(p(7)), 55(a)(1) of the Illinois Environmental Protection Act, and Section 812.101(a) of Title 35 Illinois Administrative Code.
