

Deer Park Township Site # D998055002

ORIGINAL

I am 71 years old. Had polio at the age 15 which left me with a weak left hand and arm and also my left leg requires a full leg brace that hinges at the knee.

In the fall of 1988 I had a heart attack, that left damage to my heart. In Spring of 2004 a gentleman drove thru an intersection across a State highway hitting me. I received multiple cuts to my head and face. Badly Broken up left hand so it weaker and deformed after being repaired by surgery. My left knee was crushed and the ball was broke of the leg bone at the hip. My left leg has metal bars, plates, bolts and screws holding it together. There is only approximately 2 1/2" of bone in leg that does not have metal. I have to wear a full leg brace, locked at the knee to walk and to use crutches.

In the Spring of 2005 my heart required four bypasses to repair it.

My son does well over 95% of the work completed on my five acres. He is laid off at this time and taking the summer off to complete this project.

I do not have a land fill on my five acres or am I trying to run one. My property has no large ravines to fill. It does have a creek that runs across it, that I sure don't want filled.

Thank you for reading my review and hope I can have it pass La Salle County Environmental Services and land use inspections.

Thank You

P.S. I have had house hold waste pick up for years.
