ORDER OF THE BOARD (by B. Forcade):

On September 11, 1986, the Village of Villa Park filed a Petition for Variance, seeking relief from regulations on restricted status and standards for permit issuance as those regulations pertain to limitations on combined Radium 226 and 228. That petition is deficient in that it:

- a) Fails to provide sufficient information on the geographic location of the wells, connections, storage devices and water usage to allow the Board to determine whether blending of various wells might reduce contamination levels; and
- b) Fails to provide sufficient information on individual contamination levels for each well, historical composite contamination levels, or a verified statement that no additional radium sampling and analysis data exists.

Unless an amended petition is filed within 45 days curing the above-noted defects, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 11<sup>th</sup> day of September, 1986, by a vote of 6-0.

  
 Dorothy M. Gunn, Clerk  
 Illinois Pollution Control Board
