RECEIVED  
CLERK'S OFFICE

AUG 18 2010

STATE OF ILLINOIS  
Pollution Control Board

Thank you for your First Notice which recognizes that the Chicago Area Waterways (CAWS) and Lower Des Plaines River are being used for recreational purposes. I support Illinois EPA's proposal to require disinfection at MWRD sewage plants, and to protect aquatic life in these waters from thermal pollution.

*Pct# 384*

The Chicago River has been a pathway for pathogens for too long! Running through the heart of the Chicago Region the river has long been denied some of the basic goals of the Clean Water Act namely that all waters should be "drinkable, swimmable and fishable." Failure to disinfect sewage from all Metropolitan Water Reclamation District (MWRD) treatment plants put both people and wildlife at risk of becoming ill.

The Chicago Area Waterways and Lower Des Plaines River are important Illinois resources. As you move forward with the rulemaking process, I urge you to require MWRD to disinfect the sewage it discharges to these waterways.

Sincerely,

Ms. Jan Tervydis  
113 W Linden St Apt 2  
Edwardsville, IL 62025-2000

Thank you for your First Notice which recognizes that the Chicago Area Waterways (CAWS) and Lower Des Plaines River are being used for recreational purposes. I support Illinois EPA's proposal to require disinfection at MWRD sewage plants, and to protect aquatic life in these waters from thermal pollution.

*PC# 386*

The Chicago River has been a pathway for pathogens for too long! Running through the heart of the Chicago Region the river has long been denied some of the basic goals of the Clean Water Act namely that all waters should be "drinkable, swimmable and fishable." Failure to disinfect sewage from all Metropolitan Water Reclamation District (MWRD) treatment plants put both people and wildlife at risk of becoming ill. I live a few blocks from the river and have boated on it frequently. I would like to be able to kayak on it without having to worry that falling into it could cause me to be ill! Please work to increase its cleanliness!

The Chicago Area Waterways and Lower Des Plaines River are important Illinois resources. As you move forward with the rulemaking process, I urge you to require MWRD to disinfect the sewage it discharges to these waterways.

Sincerely,

Mr. Joseph Holtz
