**Narrative Inspection Report**

I conducted an open dump reinspection at the above referenced facility on December 1, 2010. The inspection lasted from approximately 11:00-11:40 A.M. This inspection was conducted to determine the regulatory status and evaluate compliance with the Environmental Protection Act (Act) and Title 35 Illinois Administrative Code, Subtitle G: Land Pollution (Regulations). Eleven photos and no samples were taken. The weather was overcast and windy, with snow flurries the previous day and temperatures in the 20s.

This site was formerly owned by William Decker, who operated a salvage yard at the site. The site has had repeated open dumping violations since the mid 1990s. The property was later purchased by Tim Crouch. The following is a summary of the chronology in the file.

3/22/96	Initial inspection finds evidence of open dumping, open burning, and tire violations.
5/29/96	ACWN sent
7/22/96	Site reinspection, no changes noted.
9/11/96	\$500 Administrative Citation sent to Mr. Decker.
3/19/97	Site reinspection. Again no changes.
6/19/97	\$1000 Administrative Citation filed.
7/23/97	AC paid by Decker.
12/2/97	Site reinspected.
12/2/97	VN Sent to Decker
2/18/99	Reinspection finds open dumping violations. New owner Tim Crouch.
3/11/99	VN Sent to Crouch.
4/14/99	CCA Accepted. Compliance date 6/1/99
9/1/10	New Inspection
9/10/10	New ACWN sent to Crouch

When I reinspected the site on September 1, 2010, I found the autos, mobile homes, and large stacks of tires were no longer present. Overall, the majority of the waste found in 1999 had been removed, when compared to photos from that time period. I did, however, find waste open dumped at the site.

Near the entrance I found several cracked open batteries. I saw two farm trucks that contained general construction and demolition debris. One had aged lumber, the other had old roofing material in the bed. I noted a pile of lumber near the eastern treeline. In a copse of trees in the center of the site I found several small clusters of tires, some without rims, and a drum of unknown liquid. A truck with C&C Auto Wrecking (one of Mr. Crouch's businesses) was also present.

I called Mr. Crouch on September 14, 2010 and spoke to him about the property. He indicated he still owned the property, but had cleaned it up after the VN letter in 1999. I replied that it was obvious he had removed a large amount of material from the site, but several areas still needed to be addressed. He said he would send some people out as soon as possible to remove the rest. I offered to send him my photos of the remaining problem areas, and he accepted. I sent the photos via e-mail the same day.

### **Current Inspection**

I reinspected the site on December 1, 2010, and found none of the waste had been removed. In fact, with the seasonal death of the heavy vegetation I found additional wastes not noted during the first inspection. The truck with roofing materials was still present (photo 11). Tires were scattered around the site, but I found a large pile of tires on the west side I did not see during the first visit (photo 8). The drums of unknown liquids were still present (photos 3-4), and other debris, such as furniture and wood were observed (photos 3, 6, 9, and 10).

### **Regulated Status**

The site is still regulated as an open dump.

### **Apparent violations observed during this inspection:**

Environmental Protection Act. 415 ILCS 5/1 et. seq. (formerly Ill. Rev. Stat. Ch. 111 1/2, 1001 et. seq.) {hereinafter called the "Act"}

- a) The person should first determine if the waste is excluded from regulation under 35 Ill. Adm. Code 721.104.

A violation of 35 Ill. Adm. Code 808.121(a) is alleged for the following reason: **A special waste determination has not been performed on a drum of liquid at the site.**
