Respondent.)

ORDER OF THE BOARD (by J. D. Dumelle):

This matter comes before the Board upon a May 18, 1984 petition for variance filed on behalf of the Continental Grain Company. Variance is requested for nine facilities located in eight different counties, some of which are, apparently, out of compliance with the grain handling rules and others of which may or may not be in compliance. Hearing has been neither waived nor requested and compliance costs, compliance plans and environmental impacts are either not discussed regarding individual facilities or are not discussed at all.

Some of these difficulties arise from addressing nine facilities in a single variance petition, and even further problems can be anticipated if hearing is requested regarding all facilities. Given the noted deficiencies, the problems inherent in multiple facility variance requests, and for reasons of administrative convenience, the Board hereby dismisses the petition as inadequate with leave to refile separate petitions which cure the above-noted defects.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board hereby certify that the above Order was adopted on the 29th day of May, 1984 by a vote of 6-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
