ORDER OF THE BOARD (by G.T. Girard):

On August 25, 2011, the Illinois Environmental Protection Agency (Agency) filed a recommendation that the Board certify certain facilities of WRB Refining, LLC (WRB Refining) as “pollution control facilities” for preferential tax treatment under the Property Tax Code. *See* 35 ILCS 200/11-5 *et seq.* (2010); 35 Ill. Adm. Code 125. WRB Refining’s Wood River petroleum refinery is located at 900 South Central Avenue in Roxanna, Madison County. In this order, the Board describes the legal framework for tax certifications, discusses the Agency’s recommendation, and certifies that WRB Refining’s ultralow NOx burners, fuel filters, and continuous emissions monitoring system are pollution control facilities.

LEGAL FRAMEWORK

Under the Property Tax Code, “[i]t is the policy of this State that pollution control facilities should be valued, at 33 1/3% of the fair cash value of their economic productivity to their owners.” 35 ILCS 200/11-5 (2010); *see also* 35 Ill. Adm. Code 125.200(a)(2). “For tax purposes, pollution control facilities shall be certified as such by the Pollution Control Board and shall be assessed by the Department [of Revenue].” 35 ILCS 200/11-20 (2010); *see also* 35 Ill. Adm. Code 125.200(a).

Under Section 125.202 of the Board’s procedural rules, a person may submit an application for tax certification to the Agency. *See* 35 Ill. Adm. Code 125.202. If the Agency receives a tax certification application, the Agency must file with the Board a recommendation on the application, unless the applicant withdraws the application. *See* 35 Ill. Adm. Code 125.204(a). Among other things, the Agency’s filing must recommend that the Board issue or deny tax certification. *See* 35 Ill. Adm. Code 125.204(a)(4). If the Board finds “that the claimed facility or relevant portion thereof is a pollution control facility . . . , the Pollution Control Board . . . shall enter a finding and issue a certificate to that effect.” 35 ILCS 200/11-25 (2010); *see also* 35 Ill. Adm. Code 125.216(a).

AGENCY RECOMMENDATION

The Agency states that it received a tax certification application from WRB Refining on or about October 14, 2010.¹ Rec. at 1. On August 25, 2011, the Agency filed a recommendation on the application with the Board, attaching the application. The Agency's recommendation identifies the source of the pollution a Distilling West H-28 Nitrous Oxide (NOx) Reduction project emitted by "fuel-fired furnaces that heat the distillation processes undertaken in the Distilling Unit No. 41 Vacuum Flasher NO.4 of the Distilling West Area at the refinery." *Id.* at 2.

The Agency's recommendation further describes the project as consisting of:

the installation of ultralow NOx burners in one of the furnaces, designated H-28, to reduce NOx emissions from the atmosphere. As stated in the application, the project also included modifications to the furnace's radiant and convection sections to accommodate the use of ultralow NOx burners, the installation of added filtering and conditioning of the fuel gas to protect against solids of the building up (or plugging) the burner ports and the installation of a continuous emissions monitoring system. *Id.*

The Agency recommends that the Board certify that the identified facilities are pollution control facilities as defined in Section 11-10 of the Property Tax Code (35 ILCS 200/11-10 (2010)) with the primary purpose to prevent, eliminate or reduce air pollution. *Id.*

TAX CERTIFICATE

Based on the Agency's recommendation and WRB Refining's application, the Board finds and certifies that WRB Refining's facilities identified in this order are pollution control facilities under the Property Tax Code (35 ILCS 200/11-10 (2010)). Under Section 11-25 of the Property Tax Code, the effective date of this certificate is "the date of application for the certificate or the date of the construction of the facility, which ever is later." 35 ILCS 200/11-25 (2010); *see also* 35 Ill. Adm. Code 125.216(a). Section 125.216(d) of the Board's procedural rules states that the Clerk "will provide the applicant and the Agency with a copy of the Board's order setting forth *the Board's findings and certificate, if any.*" 35 Ill. Adm. Code 125.216(d) (quoting in italics 35 ILCS 200/11-30 (2010)). The Clerk therefore will provide WRB Refining and the Agency with a copy of this order.

IT IS SO ORDERED.

Section 41(a) of the Environmental Protection Act provides that final Board orders may be appealed directly to the Illinois Appellate Court within 35 days after the Board serves the order. 415 ILCS 5/41(a) (2010); *see also* 35 Ill. Adm. Code 101.300(d)(2), 101.906, 102.706. Illinois Supreme Court Rule 335 establishes filing requirements that apply when the Illinois Appellate Court, by statute, directly reviews administrative orders. 172 Ill. 2d R. 335. The Board's procedural rules provide that motions for the Board to reconsider or modify its final

¹ The Agency's recommendation is cited as "Rec. at _."

orders may be filed with the Board within 35 days after the order is received. 35 Ill. Adm. Code 101.520; *see also* 35 Ill. Adm. Code 101.902, 102.700, 102.702.

I, John Therriault, Assistant Clerk of the Illinois Pollution Control Board, certify that the Board adopted the above order on September 8, 2011, by a vote of 5-0.

A handwritten signature in black ink that reads "John T. Therriault". The signature is written in a cursive style with a long horizontal flourish extending to the right.

John Therriault, Assistant Clerk
