PC# 281

Dear Mr. John Therriault:

Illinois Pollution Control Board Members

Dear Board Members,

I object to Ameren Corporation's Petition for a Variance, Docket No. PCB 2012-126.

As an Illinois resident concerned with lung health, I strongly urge the board to REJECT Ameren's request to delay compliance with state rules that require significant cuts in dangerous sulfur dioxide emissions rates from the company's fleet of coal power plants operating in Illinois. Sulfur dioxide is a dangerous air pollutant that contributes to asthma attacks, respiratory hospitalizations, and premature deaths.

Compared to a future where Ameren complies with existing state pollution rules, granting the delay requested by the company would lead to hundreds of additional asthma attacks and scores more premature deaths. Ameren was given ample time to comply with state power plant pollution regulations, which were put in place over five years ago. Please deny the variance requested by Ameren. Illinoisans' health and lives should not be put at risk any longer!

Sincerely,
Gretchen Gharrett

Dear Mr. John Therriault:

Illinois Pollution Control Board Members

Dear Board Members,

Please do NOT grant Ameren Corporation a Petition for a Variance, Docket No. PCB 2012-126.

As an Illinois citizen concerned with air quality, I strongly urge the board to DENY Ameren's request to delay compliance with state rules that require significant cuts in dangerous sulfur dioxide emissions rates from the company's fleet of coal power plants operating in Illinois. Sulfur dioxide is a dangerous air pollutant that contributes to asthma attacks, respiratory hospitalizations, and premature deaths.

Granting the delay requested by the company would lead to hundreds of additional asthma attacks and scores more premature deaths. Ameren was given ample time to comply with state power plant pollution regulations, which were put in place over five years ago. Please deny the variance requested by Ameren. Protect the health of Illinois residents.

Dear Mr. John Therriault:

Illinois Pollution Control Board Members

Dear Board Members,

I object to Ameren Corporation's Petition for a Variance, Docket No. PCB 2012-126. THIS IS MERELY, OBVIOUSLY A DELAY TACTIC BY ANOTHER LARGE UTILITY TO WALK OVER THE PUBLIC THAT IT SERVES. IPC NEEDS TO SERVE ITS CONSTITUENTS AND NOT BOW DOWN TO SIMPLE PLEAS OF LOST REVENUE, ETC. If Ameren could not see the need for its compliance coming, it should not be in business.

As an Illinois resident concerned with lung health, I strongly urge the board to REJECT Ameren's request to delay compliance with state rules that require significant cuts in dangerous sulfur dioxide emissions rates from the company's fleet of coal power plants operating in Illinois. Sulfur dioxide is a dangerous air pollutant that contributes to asthma attacks, respiratory hospitalizations, and premature deaths.

Dear Mr. John Therriault:

Illinois Pollution Control Board Members

Dear Board Members:

As a Citizen who cares, I strongly object to Ameren Corporation's Petition for a Variance, Docket No. PCB 2012-126, and strongly urge you to deny it.

Ameren's request to delay compliance with state rules that require significant cuts in dangerous sulfur dioxide emissions rates from the company's fleet of coal power plants operating in Illinois is outrageous, would cause great harm to all of us, and must be rejected.

As you may know, sulfur dioxide is a dangerous air pollutant that contributes to asthma attacks, respiratory hospitalizations, and premature deaths.

Compared to a future where Ameren complies with existing state pollution rules, granting the delay requested by the company would lead to hundreds of additional asthma attacks and scores more premature deaths.

As I understand the facts, Ameren was given ample time to comply with state power plant pollution regulations, which were put in place over five years ago.

Please deny the variance requested by Ameren. Illinoisans' health and lives should not be put at risk any longer by burning demon coal!

Let's convert 100% to wind and solar, NOW!!!!

Illinois Pollution Control Board Members

Dear Control Board Members,

I object to Ameren's Petition for a Variance, Docket No. PCB 2012-126.

In 2006, Illinois made history by passing a leading mercury pollution reduction standard. The original agreement included new clean air standards for mercury, sulfur dioxide (SO₂) and nitrous oxide (NO_x), which create acid rain and smog, as well as many health-related problems. Ameren committed to a schedule for reducing its SO₂ and NO_x pollution in return for more time to make its mercury pollution reductions.

The state upheld its side of the deal, but now Ameren is trying to stall cleaning up its coal plants like it promised to. Please reject the company's request for a variance and hold the company to the standard passed in 2006. The agreement to reduce mercury pollution is vital in protecting public health and the environment through Illinois and the Midwest. This is critical for my health, our environment and the Midwest's future.

Sincerely,

Compared to a future where Ameren complies with existing state pollution rules, granting the delay requested by the company would lead to hundreds of additional asthma attacks and scores more premature deaths. Ameren was given ample time to comply with state power plant pollution regulations, which were put in place over five years ago. Please deny the variance requested by Ameren. Illinoisans' health and lives should not be put at risk any longer!

Sincerely,
Matt Maloney

PC# 304

Dear Mr. John Therriault:

Illinois Pollution Control Board Members

Dear Board Members,

I object to Ameren Corporation's Petition for a Variance, Docket No. PCB 2012-126.

As an Illinois resident concerned with lung health, I strongly urge the board to REJECT Ameren's request to delay compliance with state rules that require significant cuts in dangerous sulfur dioxide emissions rates from the company's fleet of coal power plants operating in Illinois. Sulfur dioxide is a dangerous air pollutant that contributes to asthma attacks, respiratory hospitalizations, and premature deaths.

Compared to a future where Ameren complies with existing state pollution rules, granting the delay requested by the company would lead to hundreds of additional asthma attacks and scores more premature deaths. Ameren was given ample time to comply with state power plant pollution regulations, which were put in place over five years ago. Please deny the variance requested by Ameren. Illinoisans' health and lives should not be put at risk any longer!

Sincerely,
Gina Schwieger
