NARRATIVE

On July 27, 2011, I conducted a Tire Storage Inspection from 10:40 a.m. until 12:00 p.m. at Hughes Tire-Brake & Retread located at 730 31st Avenue, Suite 2 in Rock Island, Illinois. The property is owned by Big River Enterprises, Inc. It is operated by Hughes Tire & Battery Company as seen in the Secretary of State Corporation File Detail Report. The facility is being utilized as a storage site for new/retread and used tires. The Used and/or Waste Tire Activity Notification Form and required annual fee were submitted to the Agency on July 9, 2012. I interviewed James H. Hughes.

I observed about 275 used tires stored inside covered buildings/structures as seen in photographs 7, 8, 9, 10, 11, 12, and 13.

I observed a few used tires outside the building that were not prevented from accumulating water as seen in photographs 4, 5, and 6. One used tire stored outside contained water. There was insufficient water to conduct sampling. Larval mosquitos were not observed in the water. Mr. Hughes explained that it rained the night before the inspection.

The following apparent violation was observed:

1. Pursuant to Section 55(k)(1) of the {Illinois} Environmental Protection Act (415 ILCS 5/55(k)(1)), no person shall cause or allow water to accumulate in used or waste tires.

The prohibitions specified in this subsection (k) shall be enforceable by the Agency either by administrative citation under Section 31.1 of this Act or as otherwise provided by this Act.

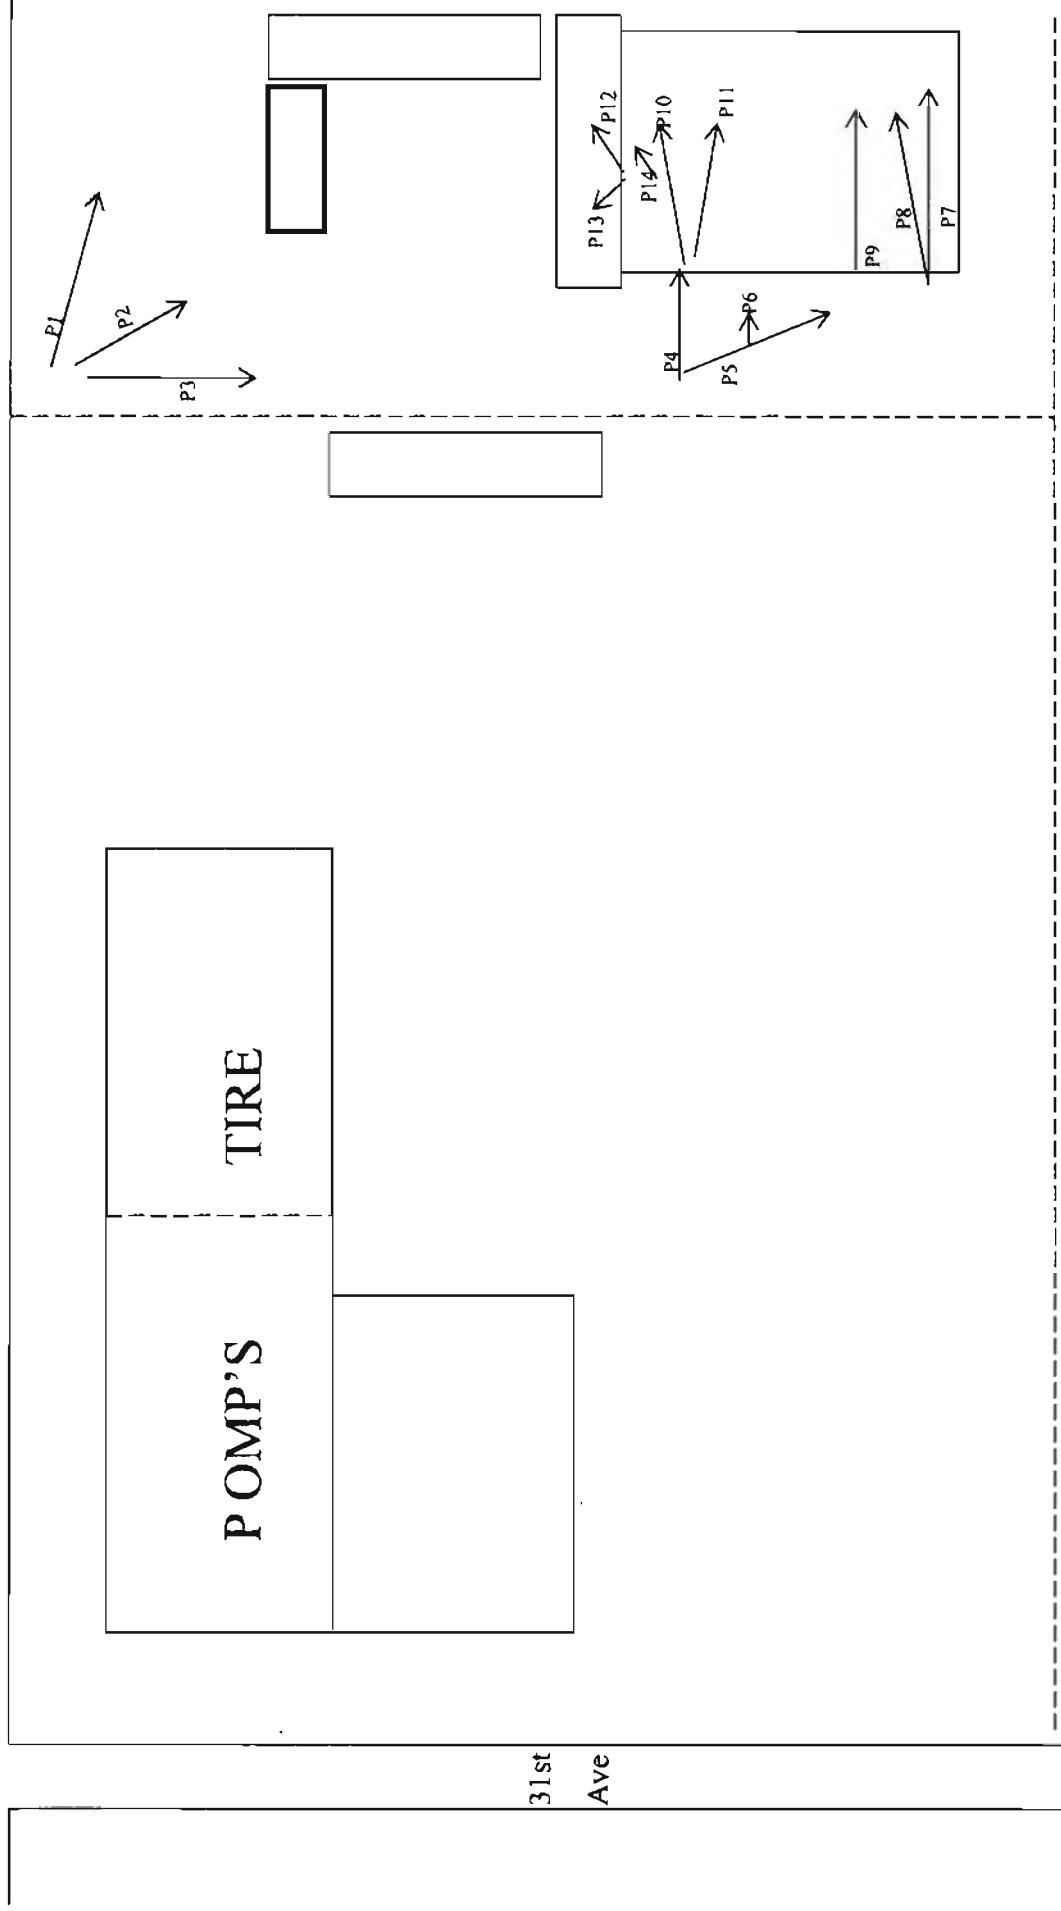

A violation of Section 55(k)(1) of the {Illinois} Environmental Protection Act (415 ILCS 5/55(k)(1)) is alleged for the following reason: **Hughes Tire & Battery Company as operator d/b/a Hughes Tire-Brake & Retread allowed used or waste tires to accumulate water.**
