STATE OF ILLINOIS  
Pollution Control Board

Petition for Review of site # 077 050 5099

*Ac13-35*

1. The site is not an open dump.
2. The storage of clean construction material was in the process of being sorted and stored or disposed of in a dumpster as money allowed. The material came from storm damage to my own house.
3. Most of stuff in photo (03)-(04) was gone before notice was sent. Vinyl siding in photo (02) was being transferred to pick up ladder rack in photo (01) before being covered.
4. Craig has made good progress in cleaning up his driveway and yard in the last year as money was available for dumpsters. This on \$8.55 an hour wage at 35 hours a week.
