)
ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY,)
)
Respondent.)

ORDER OF THE BOARD (by J.D. Dumelle):

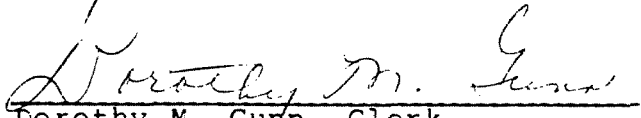

This matter comes before the Board upon a Petition for Variance Extension filed December 30, 1986 on behalf of the City of Geneva.

The Board finds the petition deficient and requests that the City of Geneva submit a more detailed explanation of its proposed compliance plan for achieving compliance with the pertinent Board regulations. The City should also submit more information on the shallow well referenced in paragraph 7 of its variance petition; specifically, the radium levels in the shallow well and whether the shallow well could be used for blending with the deep wells. The City also fails to either request a hearing on its petition or waive a hearing with an affidavit attesting to the facts asserted in the petition pursuant to Section 104.124. Lastly, the Board notes that the statements regarding a compliance plan in paragraph 4 of the petition conflict with similar statements in paragraph 8 of the petition. The City should explain the apparent conflict presented by these statements.

Unless this information is submitted within 45 days of the date of this Order, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 8th day of January, 1987 by a vote of 6-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
