Legal Notice

The Illinois Pollution Control Board gives notice of public hearings regarding rule changes proposed by the Illinois Environmental Protection Agency in Vapor Recovery Rules: Amendments to 35 Ill. Adm. Code Parts 201, 218, and 219, docket R13-18. If the Board adopts the rule changes, the Illinois Environmental Protection Agency will submit them to the United States Environmental Protection Agency as proposed revisions to the Illinois State Implementation Plan (SIP) for ozone control. However, any changes to 35 Ill. Adm. Code 201.210 would not be part of the SIP revision submitted. The SIP contains Illinois' requirements to attain and maintain National Ambient Air Quality Standards to protect public health and the environment under the former Clean Air Act and State Environmental Protection Act. The proposed revisions include (1), in the Chicago ozone nonattainment area, phasing out the requirement for gasoline dispensing operations to install, maintain, and operate Stage II vapor recovery systems and requiring system decommissioning; (2) addressing State permitting exemptions for Stage II gasoline dispensing operations and Stage I storage tank filling operations at gasoline dispensing operations; and (3) repealing the unnecessary Stage I registration provisions. Interested persons are invited to attend the hearings and/or to submit written comments. The first hearing will be held on Wednesday, May 8, 2013, at 11:00 a.m. at the Illinois Pollution Control Board, IPCB Conference Room, 1021 N. Grand Ave., East North Entrance, Springfield, IL. A second hearing will be held on June 5, 2013, at 1:00 p.m. at the Michael A. Blandine Building, 160 North LaSalle St., Room N-505, Chicago, IL. The hearings are subject to cancellation without notice and may be confirmed by
