ILLINOIS POLLUTION CONTROL BOARD NOTICE OF PUBLIC HEARING  
The Illinois Pollution Control Board gives notice of public hearing regarding rule changes proposed by the Illinois Environmental Protection Agency in Vapor Recovery Rules Amendments to 35 ILL. Adm. Code Parts 201, 218, and 219, docket R13-18. If the Board adopts the rule changes, the Illinois Environmental Protection Agency will submit them to the United States Environmental Protection Agency as proposed revisions to the Illinois State Implementation Plan (SIP) for ozone control. However, any changes to 35 ILL. Adm. Code 201.210 would not be part of the SIP revision submittal. The SIP contains Illinois' requirements to attain and maintain National Ambient Air Quality Standards to protect public health and the environment under the Federal Clean Air Act and State Environmental Protection Act. The proposed revisions include (1) in the Chicago zone nonattainment area, phasing out the requirement for gasoline dispensing operations to install, maintain, and operate Stage II Vapor recovery systems and requiring system decommissioning, (2) addressing State permitting exemptions for State II gasoline dispensing operations and State I storage tank filling operations at gasoline dispensing operations, and (3) repealing the unnecessary State I registration provisions. Interested persons are invited to attend the hearings and/or to submit written comments.
